FIGHT TOOK PLACE IN NEW ORLEANS

Martin Julian, Who Was Manager for
Fitzsimmons, Tells of the Match
and How "Lanky Bob" Gath-
ered in the Coin.

By Bill Blunt.

Special to the Democrat-Sentinel.

New York, July 31.—It seems to be established by custom that every time Bob Fitzsimmons name is mentioned these days is to tell how the poor old fellow was imposed upon in money matters and fished out of the purse he had honestly won, and how by subtle contrivance he was made a martyr to the up to date business methods of American fight promoters. He may have suffered to a certain extent, but not nearly so much as one might be led to believe by the misleading stories that have been printed about him from time to time.

The Fitzsimmons-Hall fight at New Orleans, when Bob was "trimmed out of the purse," has been a favorite theme.

It will, no doubt, surprise many to read it, but it is a fact that for the ten minutes of actual fighting time it took him to put Hall away he received \$23,800 in real money and from the club, too. Not so bad, that, \$2,380 a minute. In fact, it was the largest purse ever received in the pugilistic history of America up to that time, with the exception of the Corbett-Sullivan fight in the same city, when a purse of \$25,000 was given the contestants.

A complete and faithful story of how that bout was arranged and clinched, with the details of the settlement and other frills incident to the match, never has been printed. At the time the match was talked of both Fitz and Hall were high in the public's favor. The latter was credited with a four-round knock out win in Sydney over Fitz, and had but recently put Ted Pritchard away in London in four rounds. Fitz had beaten Jack Dempsey and Peter Maher, besides scoring victories over several lesser lights, like Billy McCarthy, the Black Pearl, and Arthur Upham.

The public fairly clamored for a match between the Antipodean stars. Martin Julian was Fitz's manager, and he probably knows more about the details of the match than any living man.

"Bob and I were on the road with a show," said Julian, "and when we heard that the New Orleans promoters had arrived in New York to nego-

date for the match we hurried back. Fitz had promised the New Orleans people that no bid would be accepted without giving them a chance to try for the bout. We knew that Coney Island also was after the match, hence the promise."

"When the day for action came the New Orleans folks, Charlie Noel and Captain Williams, were quartered at the Hoffman house, while the Coney Island contingent, headed by Judge Newton, was installed at the old St. James. New Orleans started the ball rolling by offering \$20,000. I went up to the St. James and the judge said \$25,000. Returning to the Hoffman, Noel pressed it five and offered \$30,000. Another trip up and Newton made it \$35,000. I thought the limit had been reached, but upon my return Noel jumped it to \$40,000. Coney then offered \$45,000, but the bid seemed beyond reason and didn't appeal to me very strongly. Furthermore, Fitz was partial to New Orleans, and after a conference we accepted Noel's \$40,000, with the understanding that he was to give us a bonus of \$2,000 for training and other expenses.

"We took his check for \$500 on account, signed the articles right there, and as Hall, who was on his way back from England after the Pritchard fight, had previously agreed to accept any offer that was satisfactory to us, the match was on, winner take all. Fitz and I finished the road tour and went to Bay St. Louis, Miss., to train. Each side had a thousand dollar forfeit posted with Noel. About a week before the fight I went to New Orleans and drew \$300 more of the expense money to square some accounts around the quarters."

"The night of the fight Bob weighed about 165 and Hall 163½," continued Julian. "Being at catch weight, neither tried to train down, and each was as strong as a bull moose. In Bob's corner were his brother, Billy, Frank Bosworth and myself, with Dominick O'Malley holding the watch. Hall's seconds were Charlie Mitchell, Jack McAuliffe, John Kline and Squire Abingdon. Bat Masterson, timer John Duffy, since deceased, was referee, and R. M. Frank was the club's time keeper. Being exceptionally clever, Hall was out pointing us four to one. Those who had bet on Bob began to squirm in their seats. When he came to his corner after the third I told him he would have to fight better or he would get licked, sure."

"In the fourth Hall was peppering Bob at will with lefts and rights. He edged him to a corner, slammed away for dear life, and although Fitz tried to cover up the effort was futile. It looked like a sure finish, and so it proved, but not for Bob. "Fitz was stooping over awkwardly to get away from the punishment,

both feet on a line. Here it was that his ability to hit from any angle served him well and saved him from certain defeat.

"Hall had drawn back momentarily to harden up for a wicked right hand punch. That fraction of a fleeting second served to turn the tide of battle. Bob's left foot shot forward and almost simultaneously his right went swinging through the air with the speed of a comet. It moved so quickly that the eyes of but few of the spectators could follow its course. It was an overhead swing that landed squarely on the jaw. No human being could have withstood its force without succumbing. Hall crumpled like a stricken deer and was unconscious before he struck the ground. It was the hardest blow I ever saw delivered in my life."

"The following morning I went to the club to collect the purse, and Noel and Captain Williams took me into a private office. They explained

AT CONVENTION IN LOUIS-
VILLE THIS MONTH.

THE ASSOCIATED ADVERTISING CLUBS

Fifth Annual Meeting Will Be Held
August 25, 26 and 27—Some
of Big Men Who Will Be
in Attendance.

Special to the Democrat-Sentinel.

Louisville, Ky., July 31.—"The Romance of Advertising," which is one of the big chapters in the development of American business, will be told by those who have had to do with it most intimately when the fifth annual convention of the Associated Advertising Clubs of America is held here August 25, 26 and 27.

Frank Van Camp, of Indianapolis, will tell how he is spending \$2,000,000 a year to create a desire for a product which he originated and which had not been on the market before. In one week, in his New York advertising campaign, he spent \$100,000, and the demand for pork and beans grew so rapidly that he had to shut down on advertising and put his factory to working night and day to supply the demand.

Hugh Chalmers, head of a big automobile company in Detroit, will give an idea of how advertising works by showing a profit of a quarter of a million as the result of his first year in business.

"I didn't know anything about automobiles, but I did know something about advertising," said Mr. Chalmers, whose modest expenditure of \$28,000 a week to create a demand for a \$1,500 car resulted in 984 sales.

Advertising has become so necessary a factor in the business of nearly everybody in the country that the convention will not be attended simply by advertising writers and those who conduct advertising agencies; but the heads of big business enterprises and great publication houses will attend to give their ideas and get new ones about what they regard as the most important item in their business success.

"NIGHT RIDING" HELPED MISSOURIANS

Outrages in Kentucky and Tennessee
Causes Larger Acreage to Be
Grown Here—The Product
of the Past Year.

Special to the Democrat-Sentinel.

Jefferson City, Mo., July 31.—Night riding during the tobacco troubles in Kentucky and Tennessee, while disastrous to the farmers of those two states, indirectly and unintentionally proved beneficial to Missouri, as it created more of a demand for the variety of the "weed" which is raised here, thereby bringing many a dollar into the coffers of growers who were farsighted enough early last year to realize that there would be a market for all that would be produced and a higher price paid per pound.

According to advance figures from the 1909 "Red Book" of the bureau of Labor statistics, today made public by Commissioner J. C. A. Miller, the farmers of Missouri in 1908 shipped to St. Louis, Kansas City and Chicago and other large cities a total of 963,968 pounds of home grown tobacco, valued at \$115,676, as compared with 609,532 pounds, valued at \$48,762, for the year 1907. For a side line this is a large gain and practically means just that much "easy money" for the farmers who shipped to the large cities.

Home Consumption.

It must not, however, be taken for granted that this was all the tobacco which was raised in Missouri for the year 1908. In fact, the crop was again as large as the shipments and therefore worth twice the money. Many hundred pounds were sold and consumed in the cities and towns of the counties which did the producing, and quite a supply was kept at home by the growers and "burned up" as a source of comfort during the long evenings of last winter in "Missouri meerschaum pipes."

The state board of agriculture placed the number of acres devoted to tobacco in 1908 at 2,471, and the total yield at 2,038,575, and, with a value of 12 cents a pound, the total was worth \$244,629. For 1907 the estimated yield was 1,695,166, and the value \$186,468. This comparison reveals that in one year the industry almost doubled itself, from a financial point of view.

Large Future Crop.

It is already known that the 1909 crop will exceed that of 1908, as many more acres were planted early this year. Good inducements in the shape of free seed and the promise of a good price per pound offered to farmers for all they could raise made many anxious and active.

At one time Missouri ranked high as a tobacco state, producing a tremendous crop annually, which was carried to market in huge hogheads by steamboats. Heavily laden wagons were driven many miles to a landing place in the eagerness to place the product in the hands of shippers. St.

Louis then had many large tobacco warehouses and hundreds of men were engaged in curing, packing and otherwise preparing the Missouri weed for the manufacturers.

One of these huge buildings still stands at Twelfth and Market streets, east of the city hall, as a forcible reminder of these good old days. Since then other crops, which pay better and are not so hard to raise and prepare for the market, have taken the place of tobacco on the farm.

Night Riding Did It.

It remained for the "night riding" in Kentucky and Tennessee by increasing the price per pound of tobacco, to recall, stimulate and part-

HOSIERY WILL REMAIN AT OLD PRICE

Imported Soaps, if You Must Have
'Em, Will Be Higher, but No
Change in Homemade Kind
—Coal Not Affected.

St. Louis, Mo., July 31.—"Have you seen the new tariff schedule?" was asked the clerk at the hosiery counter yesterday. "And do you know, that stockings are going to be higher?"

"I don't know a thing about the tariff," was the reply, "but I do know something about stockings; and if they are to go any higher there'll have to be a revision of the human form as well as the tariff."

"For the tariff end of your query, you'd better go see the hosiery buyer."

Later William Reinhardt, of the William Barr Dry Goods company, said the advance of 20 cents on cotton hosiery at not more than a dollar a dozen would not affect the retail trade in the United States, as very little of that quality of stocking was imported to this country.

The advance of 15 cents on all fancy liquors, so say all the whisky retailers, will not affect the consumer, the brunt of the slight advance falling mainly upon the retailer.

The advance, of course, applies to French champagne, which will not so seriously affect St. Louis, dealers say, because for the last four years little champagne has been drunk in this city.

Fancy soaps, which are bought mainly by the consumer at the drug stores, have been advanced 50 per cent ad valorem, and it is given out that there will be a slight advance in price to the consumer when purchasing the foreign soaps.

However, the bulk of the fancy soaps are made in the United States. St. Louis retailers say there should be no occasion for the consumer to pay more for them unless he finds better satisfaction in using the foreign make.

Bituminous (soft) coal has been reduced from 67 to 45 cents a ton. The Devo-Kuhn Coal and Coke company says such a reduction does not affect the Mississippi valley trade, the price of coal to the consumer being predicated mainly on miners' strikes and other price disturbances.

This immediate revision of the tariff applies mainly to Nova Scotia, New Brunswick and Welsh coal, which is sold in the New England states in competition with that mined in Pennsylvania and West Virginia.

The A. Moll Grocer company is authority for the statement that the reduction of tariff on sugar from \$1.95 to \$1.90 a hundredweight and on salt from 12 to 11 cents a hundredweight is so slight and immaterial that it will affect neither retailer nor consumer of these products.

Carpets and carpet mats have been reduced from 5 cents a square yard and 35 per cent ad valorem, which from the viewpoint of half a dozen local retailers is so slight that the difference could be wiped out by any unexpected change in interstate freight rates.

"The reduction in tariff on shoes from 25 to 10 per cent," said a retailer yesterday, "means nothing to the local retailer. Today all shoes are 10 cents higher than they were a year ago, notwithstanding we sell our goods to the wearer at the same price."

"The jobber and manufacturer of shoes may change his prices whenever he wishes, but the retailer cannot."

"The shoe the retailer advertises

Investigation in various lines of

be changed materially.

In many instances the changes are
so slight that the middleman may well

ally restore an almost lost industry in Missouri. Yet, it is true that nearly every farmer has, and has had for years, his own little "patch" for raising what he needs at home, but there were only a few who made a specialty of growing this luxury for the market until last spring.

The leading tobacco counties in 1908 were Chariton, Platte, Carroll, Clay, Henry and Lawrence. In all, fifty-one counties contributed in 1908 to the 963,968 pounds of tobacco that were shipped into the larger cities. Chariton county led with 332,250 pounds, and Platte county was next with 244,275 pounds. Then came Carroll with 85,315; Clay, 59,125; Henry, 32,608; Lawrence, 20,272. All these went out by rail and these figures do not tell for those counties what was kept at home for the farmers themselves or was sold or given to neighbors, which was probably 25 per cent more.

A Matter of Taste.

Much Missouri tobacco is made up into cigars, and when the weed has been properly cured and prepared it smokes as deliciously as any imported kind—of course, all this depending on the taste of the smoker and how vivid his imagination is. With a highly colored imported wrapper around a bunch of the home grown leaf, there are hundreds of men with the "habit" who can easily lull themselves into the belief that they are enjoying a pure Havana just because the cigars were in a tasty looking box, neatly made up and were labeled "ten cents straight." That the article they received was as good there is no doubt, if entirely composed of Missouri tobacco.

Some is made up into old fashioned "granger twist," once so popular with the politicians anxious to win their way into the hearts of farmers and gain their votes. When campaigns were conducted in the old fashioned way, every office seeker when stumping the rural districts, had to carry a twist or two as a letter of recommendation, and take an occasional chew, whether he liked it or not just to show that he was made of the right stuff, and that anything from Missouri was good enough for him.

S.S.S. CURES OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germ; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S. S. S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S. S. S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S. S. S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. THE NATIONAL Two-Hole Fireless Cooker Cabinet

is 24 inches long, 12 inches wide by 12 inches deep, made of kiln dried, specially prepared wood, dovetailed on all corners.

The cabinet is packed with chemically treated mineral wood which retains heat at the highest temperature.

The Cover is pressed steel, perfectly sanitary, and indestructible; it cannot wear out. The lining and Kettle Container is made of heavy seamless enameled tin, airtight and waterproof. Intense cold has absolutely no effect whatever on the contents of the Cooker. A dinner can be put in the Cooker and taken in the open air, on the back porch for example, even if the temperature is 20 degrees below zero, the cooking process will continue just as perfectly and scientifically as if Cooker was in the house.

The Cooker contains a six-quart and also a four-quart enameled pressed steel cooking kettle with special airtight covers.

The National Fireless Cooker sells everywhere for \$10, but the Democrat-Sentinel is able to furnish it to subscribers at a price never before heard of since the invention came upon the market.

The following ladies are using the National Cooker, and are delighted with its practicability, utility and economy: Mrs. A. D. Stanley, Mrs. G. H. Scruton, Mrs. G. H. Trader, Mrs. E. B. Burrowes, Mr. Harry W. Servant, Mrs. W. J. Brill.

Advantages of the Fireless Cooker Over the Usual Method

Retain all the natural juices of meats, vegetables, etc.
Renders food more nutritious and palatable.
Requires only about one-fifth the time.
Prevents scorching, drying up or burning.
Never overcooks or spoils the food.
Renders all food much more digestible.
Promotes good health and good temper.
Prevents the commingling of flavors.
Cooks cabbage, onions, etc., entirely without odor.
Gives you leisure for calling, shopping, taking a nap, etc.
Turns Sunday dinners from drudgery to delight.
Prevents worry if husband or guests are late.
Does away with kitchen heat.
Cooks for breakfast over night.
Physicians say "the dyspeptic's best friend."
Fireless Cookers and the art of fireless cooking are old, having been used in Norway and the old world ages ago—the only difference is that our Cooker is built scientifically for all practical purposes. The Cooker retains the delicate flavor of the food, otherwise lost in constant boiling—it retains the sweetness of cereals, soups, meats—in fact anything that can be boiled, may be evolved from the Cooker.
In operation this wonderful invention is simplicity itself. You simply prepare the food to be cooked in the regular way—place it on the stove and bring it to boil—then immediately transfer to the Cooker, cover tightly, add the insulated pillow covering — drop the lid and let the Cooker do the rest. In a few hours remove the cover and serve the boiling hot—perfectly cooked and with a taste that will prove delightfully surprising.

SERVANT PROBLEM SOLVED

REVOLUTION IN MEXICO

ALL NEWSPAPER TALK ALONG THAT LINE IS WITHOUT FOUNDATION.

LARGELY DUE TO BUSINESS STAGNATION

Bernardo Reyes, of Nuevo Leon, Alleged to Have Been Largely Responsible for the Unrest, Denounces Lawlessness.

Special to the Democrat-Sentinel.

San Antonio, Texas, July 31.—According to well informed authorities, among them the United States collector of customs at Eagle Pass, R. W. Dowe, the reports of an impending revolution in Mexico, recently circulated, are without the slightest foundation. While a great deal of unrest has been manifested among the laboring classes, this is claimed to be due to business stagnation and unsettled conditions generally. Mexico has not yet fully recovered from the panic of 1907 and 1908, and until the country has fully done this labor troubles are likely to make their spasmodic appearance.

Bernardo Reyes, of Nuevo Leon, who has been claimed to be to some extent responsible for the recent disturbances at Gaudalajara, his old home, refuses to endorse the lawless acts committed by students and a few overzealous friends, and will be found on the side of law and progress during the coming election. He and Vice President Corral are both loyal to the national government and President Diaz.

The persistent rumors that President Diaz is in very bad health are also inspired by people prompted by ulterior motives. Though no longer young and active, the president is anything but sickly. Would-be revolutionists who may have counted on his demise as the psychological moment for their ambitions have overlooked the fact that the Mexican government has for a long time been prepared for such an emergency.

One of its confidential agents, K. Palafox, known to be the mouthpiece of Mexican officialdom, in an interview recently given by arrangement in this city, outlined the plans made by the government. They are thorough enough to defeat the efforts of any liberator, and all assertions to the contrary, notwithstanding, are in strict accordance with the Mexican constitution. Should Diaz die, Vice President Corral would quietly assume the vacated place and it is doubtful whether even the slightest shock would be experienced by the ship of state.

Ever since the so-called revolution of 1908, culminating in the engagement at Las Vacas, opposite Del Rio, the American socialists have been

very strenuous in exposing the cause of the Mexican lower classes. A great deal of oratorical and journalistic vehemence has been exerted by them without their knowing much of the subject treated. That the Mexican government has occasionally resorted to methods not strictly constitutional would be hard to dispute; but the fact of the matter is it has to deal with a populace a large percent of which is hardly qualified to make the best of self-government in the stricter sense.

The Mexican, with all the impetuosity and gullibility of his race, could be easily led to indulge in a continuous performance of a series of revolutions. Happily, the government is too strong for him, and whatever changes there will be in the presidency will be quiet ones.

In the meantime President Diaz has been nominated to succeed himself in the election to occur in 1910, and Vice President Corral has received the unanimous nomination of the national convention for re-election. General Reyes has never announced himself as a candidate, but on several occasions has expressed himself as favoring the re-election of Mr. Corral.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

Judge at Macon, Mo., Says the "Henpecked" Husband Must Rise and Assert Himself—Wives Not to Get Too "Fussy."

Macon, Mo., July 31.—"A man should be the boss of his own household. I doubt very much whether a woman entertains very much respect for a husband who will submit to her constant nagging, not resenting it. She grows to look upon him as a sort of mollycoddle, and the woman never lived who could love a mollycoddle."

Judge A. M. Romine gave this advice to Thomas Farmer, who admitted deserting his wife, but who claimed his better half nagged him to such an extent that she made his life miserable.

"The whole trouble between these two people seems to be a want of self-assertion on the part of the husband," the judge went on. "He is really the party at fault because when his wife

had made a household nuisance of herself by her continued fault-finding and criticism, it was his duty to shut her up."

"She got so much in the habit of lecturing him that it became a sort of secondary nature with her, and she did it mechanically, not maliciously, but because it was the customary and natural thing to do."

"All the evidence shows the defendant in this case is an unusually quiet man; you might call him subdued. I guess he is. But a subdued husband is a mighty unpromising piece of furniture in a happy home."

"The henpecked husband gets no sympathy at home or abroad and deserves none. I believe the Lord intended men to govern the house, and when they fail to assume the responsibility they do it at the peril of their domestic happiness."

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Woman's Ailments.
I am a woman.
I know woman's sufferings.
I have found the cure.
I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or White Discharge, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feelings up the spine, melancholy, desire to cry, hot flashes, weakness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.
I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home easily, quickly and surely. Remember, that it will cost you nothing to give the treatment, and it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment free of charge. I will also send you free of cost, my book "WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says "You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedsily and effectually cures Leucorrhoea, Green Discharge, Painful or Irregular Menstruation in young ladies. Plumpness and health always result from its use.
Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

Christian Brothers College, ST. LOUIS, MISSOURI.

The Christian Brothers' College, a boarding and day school for young men and boys, is situated in one of the highest and most beautiful portions of the West End of St. Louis. The grounds are extensive and are laid out with an eye to the physical and moral well being of the students. The athletic field is splendidly equipped for all sports. A running track, a baseball field, with a commodious grandstand, and lawn tennis courts afford the students ample facilities for beneficial exercise.

The courses of instruction pursued in the college embrace all the subjects necessary to a practical working knowledge of the professional, scientific and mercantile pursuits; they are devised to meet the growing demand for young men who are able to answer the requirements of an age and country which insists upon practical results in professional and business activity. Thus the courses in Civil, Electrical and Mechanical Engineering, Chemistry, Manual Training and Mechanical Drawing have been greatly strengthened during the past few years. The Commercial course includes, besides the usual business details, a practical Bank and Accounting Department, where the student conducts the transactions according to the latest methods of mercantile despatch. Special stress is laid upon the essentials of Business Correspondence and Commercial Law, while a thorough English Course forms a requisite part of the curriculum.

The College Course proper is designed to impart a thorough liberal education. It fits the student to spe-

cialize in the higher departments of language and science or to embrace one of the professions. The modern languages and literature are studied with a special view to actual use in business and social life. This course leads to the Degree of Bachelor of Arts. The Degree of Bachelor of Science in Civil, Electrical or Mechanical Engineering is conferred upon students who have complied with the requirements in those specialties.

In addition to the regular Collegiate, Scientific and Commercial Courses, there is a High School and a Preparatory Department in which boys are prepared for entrance to the College proper.

The College is conducted by the professors belonging to an educational order whose fame is world-wide as regards the solidity and practicality of the instruction imparted. The Brothers make their duties a life-work and they have at their command the resources which develop the best in the moral and mental characters of the youths entrusted to their care. The success of their endeavors is attested by the achievements of their students in the various walks of life.

Correspondence is invited in regard to the entry of Boarding Students in particular. As the College is largely patronized by students coming from the section tributary to St. Louis, parents and patrons will find it to their advantage to make the necessary arrangements well in advance of the opening date—September 23.

Catalogues are furnished on application to the President or the Secretary.

Says Wassenich to Court When Wife Seeks Divorce.

Dayton, Ohio, July 31.—Rather than have his wife disappointed in her suit for divorce, Frank Wassenich fled a novel answer in which he asked the court to grant his helpmate the decree sought.

Wassenich avers that his wife removed the household goods from their home clandestinely and that, when he located her new abode on Fifth street, he was barred. Presently his clothes, wrapped in a bundle, were thrown out of an upper window.

TRAGEDY OF "MACBETH"

WILL SHORTLY BE PRESENTED
UNDER TRULY UNIQUE
CIRCUMSTANCES.

WITNESSED BY ONLY FIFTY SPECTATORS

Prosecutions of Archbishops Not to
Be Regarded as Isolated Acts
on the Part of the Civil
Authority.

By Paul Villiers.

Cable to the Democrat-Sentinel.
(Hearst News Service.)

Paris, July 31.—The tragedy of "Macbeth" will shortly be performed under circumstances which may be described as unique. Mme. Leblanc Maeterlinck, the wife of the famous Belgian writer, is arranging for the play to be given in the abbey of Saint Wandrille, which the Maeterlincks occupy. The author's wife, who is an actress, will, from the tapestry of Queen Mathilde, from Bayeux, obtain documents bearing on the costumes to be worn by the players.

The tragedy, says Mme. Maeterlinck, will not be played, but realized. It will be witnessed by only fifty spectators and the proceeds will be devoted to charity. The number of auditors has been restricted, because every person paying for admission will be well placed, the chairs being arranged where the action of the tragedy takes place.

The audience, in groups of ten, will be conducted from place to place by a servant of Macbeth's castle. From the first moment until the end only persons dressed according to the period of the tragedy will be seen.

Mme. Maeterlinck's idea is that the spectators will be under the illusion that they are the guests of Macbeth. The names of the players will only be known after the performance. Mme. Maeterlinck is "particular on this point, as she desires to remove the impression is being enacted by strolling players.

The prosecutions of the Archbishops of Auch and Bordeaux and the Bishop of Bayonne are not to be regarded as isolated acts on the part of the civil authority. The offense of these prelates are no new thing, seeing that they have but said what has been said since 1905.

But the French episcopate is requiring enormous influence in the country, and the government has determined to bring matters to an issue. Nearly seventy French bishops have associated themselves with the defiance thrown down by Cardinal Andrew, and they are finding strong support from British and American Roman Catholics.

It is evident from remarks made by M. Clemenceau and M. Briand that during the coming months the law will be put into motion against a considerable number of prelates and members of the higher clergy. The punishment for a first condemnation will be limited to fines, but for succeeding offenses it will be imprisonment, the maximum period being for two years. No exception will be made for cardinals, in spite of their European rank of princes. It is the "maniere forte" of M. Clemenceau, but the time is probably past for it to have effect.

A pleasing spectacle, in which a great actress and ten children played their parts was witnessed in the Boulevard Perrier yesterday. In this boulevard resides Mme. Sarah Barnhardt, and whenever the actress returns home from a lengthy tour she is welcomed at her door by the little girls of the neighborhood, who present her with bouquets.

The "Divine Sarah" had just finished a successful tour in the north of France. She made it by motor car for the first time, determined to be independent of trains and time-tables; but while this mode of locomotion had charm for the tragedienne it was not without some inconvenience for her youthful admirers, for they did not know when their heroine would return.

They took up their position in front of the actress' house at 11 o'clock in the forenoon. Twelve and then 1 o'clock struck and still the actress did not appear in her forty-horse power automobile. The possibility of a long wait did not dampen the enthusiasm of the little girls. Rather than desert their posts they decided to lunch on the beach. The foliage is thick at this part of the boulevard and the sight of the girls eating their frugal luncheon suggested a picnic. They waited until 4 o'clock. Then the noise of a motor horn fell on their ears. An automobile appeared and in it sat the actress, looking the picture of health. The ten girls seized their bouquets and rushed to the car when it came to a standstill. The girls presented their floral offerings in turn and each was rewarded with a charming smile. Then they trooped

off, satisfied that their five hours' vigil had not been in vain.

Patin cemetery was the scene of a battle between Apaches and policemen yesterday. Six Apaches chased a man into a tobacco shop because he would not give them a cigarette, but the shopkeeper turned them out by threatening them with a revolver. The ruffians rushed into the cemetery, and soon gravediggers and policemen appeared on the scene. A veritable battle took place among the tombstones. The Apaches discharged their revolvers at their pursuers, taking shelter behind the gravestones after each volley. Three gravediggers were seriously wounded in the head and breast. The toughs succeeded in leaving the cemetery. Police-men continued the chase and ran three of the men to earth in a house where they had taken refuge.

The police had great trouble to remove the Apaches to the police station. A hostile crowd attempted to release the prisoners. The policemen were brutally assaulted, but they stuck to their men. When they arrived at the police station their condition was lamentable. Blood streamed from their faces, and it may be that they will be off duty for some time.

Get at the root of the trouble. Rubbing an aching back may relieve it.

But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills go right at it; Reach the cause; relieve the pain. They cure, too, so Sedalia people say.

Mrs. Finira Weller, 1624 E. Fifth St., Sedalia, Mo., says: "Two Years ago I was troubled a great deal with backache. I could not control the kidney secretions and also had inflammation of the bladder. When I read about Doan's Kidney Pills, I procured a box at Bard's drug store, although I had previously tried several remedies without relief. I was helped from the first, and before long was without a sign of kidney trouble. As I have had no return of it, I can safely say that Doan's Kidney Pills cured me completely."

Can Your Advertising Agent Outsell All the Rest?

This is the vital question.

Advertising agents are bad, better or best, according to their selling ability.

Nothing else matters at all.

Advertising has only one purpose. It is to sell solely to sell the goods.

If ads can be written to sell a tenth more than yours, you are wasting a tenth of your money. You are losing a tenth of your sales.

Suppose you could hire the best salesman you know at the price of a tyro. Which man would you take?

In advertising, you can do exactly that.

High-class agents, whether good or poor, all charge the same commission.

Ads that sell the utmost cost no more to insert than ads that sell nothing at all.

Getting the best is not a question of price, but of shrewdness.

Your degree of success depends entirely on your selection of salesmen-in-print.

We solicit business solely on the basis of results.

We might talk age, for this agency is 36 years old.

We might talk size, for we have outgrown all rivals.

We might talk buying power, influence, knowledge of mediums—a dozen such matters of course.

But what do they all matter when compared with results?

Our only claim is that we outsell all others. We have proved it to hundreds. We can prove it to you.

This fact is so certain—so invariably true—that we handle advertising without any contract whatever. We rely solely on results to keep it.

That is why our Copy Chief is paid \$1,000 per week. That is why each of our brilliant men holds the place he holds.

Working together—as they do—they can sell more goods per dollar spent than any other men in existence.

Suppose these claims are facts. And suppose they apply to you.

Suppose these men, at the same expense, could bring twice the results you are getting.

How much would it mean?

There is a way to find out—easily, quickly, and certainly.

It can be done without any commitment on your part, and without disturbing your present agency connections.

The answer will be clear and final. It may be worth thousands of dollars to you. And it may be worth millions. That depends on the article advertised.

If you are interested, ask us to explain the way.

\$23,800 IN REAL MONEY

(Continued from Page 1.)

that the club was temporarily embarrassed and that some kind of compromise had to be made for the present. There was \$12,000 in coarse bills lying on the table and they said it was all they could raise at that moment. I grabbed the money, not forgetting the old adage about a shirt on the back being worth two in the laundry. I told them I was taking the money under protest, that it was not in the nature of a settlement, and that it would be applied on account until I had consulted my attorneys, the Messrs. Lazarus, Lemuel & Moore.

"Finally the club made a proposition that I accepted. They gave me \$11,000 additional in cash and a series of notes for the balance. The first was a thirty-day promise for \$5,000. Four others were for \$2,500 each, and one for \$2,000, with thirty days intervening. Although we never realized on them, due to the club's subsequent collapse, we were not treated so badly on the whole. How many boxers are there today receiving \$23,800 for their share in a four-round bout I ask you? Echo solemnly answers back, 'Nobody!'"

The announcement of Billy Delaney that he had retired from the boxing game for all time was not the signal for any outbursts of enthusiasm among the eastern fight fans. The game can ill afford to lose men of his caliber. He has been identified with boxing for so many years that he seemed a component part of it. Quiet, easy-going and on the level, folks knew that any time one of his fighters was an entrant there would be no hippodroming. The part he played in bringing Corbett and Jeffries to the fore is well known, also the care he has exercised in directing the course of Al Kaufman. He never was a brilliant press agent, it is true, and it pleased him better, it is he would express it, "You leave my name out."

but he accomplished gallant deeds, and that is what counts these hustling days. Should Kaufman ever win the title he will make three for the old scout and all from the one state. Two in a row is a wonderful achievement, but three—wow!

Speaking of the old school, the reports that have been sent broadcast many times the past year to the effect that Parson Davies is a physical wreck are wide of the mark. One went so far a month or two ago as to state he was "on his death bed." The parson has been in New York for several weeks and may be seen on Broadway any day. He looks as young as he did a dozen years ago, is enjoying good health and if it were not for a rheumatic limp in one of his legs you wouldn't think there was a thing in the world the matter with him. Unless there is a big and unexpected change in his health for the worse, the former manager of Peter Jackson, Joe Choyinski and Tommy Ryan is good for many a year to come. He has always been a man of exemplary habits, and reports that he was so low greatly surprised his friends.

NEW MEAT MARKET

For the convenience of our friends and patrons who are not within reach of our retail market, on West Main street, we are pleased to state that we have opened a brand new, first class meat market in stalls Nos. 5, 6, 9, 10 of the city market house, where you will find the very best meats of all kinds that it is possible for us to obtain, and where the service will be first class in every respect, and where we will be pleased to have you call and see the cleanest and finest meat market in the city. Very truly yours—M. M. Stevenson.

NOT THE ILLINOIS SUSPECT

Sheriff Says Colorado Authorities Have Wrong Man.

Denver, Col., July 31.—Roy L. Griswold is not the man wanted for the murder of Peter Waeltz at Belleville, Ill., last November.

Sheriff Charles Cashel of St. Clair county, Ill., yesterday arrived at Georgetown, where Griswold has been under arrest for the last three days, and after seeing and talking with Griswold for a moment declared positively that he was not Sidney Baker, the young photographer who is suspected of having robbed Waeltz and thrown him out of a third story window to his death. Griswold was released.

HITS UMPIRE WITH CLUB

Now Hardin Is Held on a State Warrant in Hutchinson.

Hutchinson, Kan., July 31.—No one tried to play ball and Hutchinson won, yesterday, 7 to 2. In the ninth inning, Hardin, after striking out, called Umpire Cleary a name, and when fined, walked over with a ball bat, gave a full swing, striking Cleary on the arm and head as the latter dodged.

Cleary was stunned but not hurt, and before Hardin could hit him again Cleary leaped upon the pitcher and bore him to the ground, holding Hardin there till help arrived. Hardin is being held on a state warrant.

HELP WANTED—Male

Wanted—Representative, reliable, energetic, with or without experience as salesman. International Conservatory of Music, Marina building, St. Louis, Mo.

The navy is composed of alert, reliable, efficient young men. They are being well paid because they know their work. When they enlisted they were like the average untrained boy. If you think you need the military training, practical instruction, regular hours, exercise and the chances the navy offers to show the stuff that's in you, investigate this subject.

If you have worked at any trade, you can probably follow it in the navy, becoming more expert by a course in a trade school; and promoted as you deserve it.

Plenty of recreation and sports, and spare time; shore leave granted deserving men frequently.

Many more apply than are enlisted, so if accepted, you will begin with a picked lot of young men. Applicants from 17 to 25 years old are enlisted for instruction in the seaman branch; electricity, clerical duty, hospital corps, etc. If you have a trade you may enlist if under 35.

Act promptly; get booklets about daily work, cruises, pay, promotion and privileges. But take time to consider fully before enlisting. Ask men in the navy how they like it. Apply Navy Recruiting Station, Postoffice Building, Kansas City.

MISSING CHURCHMAN FOUND

R. E. Burks Turns Up Alive at Fort Smith, Ark.

Fort Smith, Ark., July 31.—R. E. Burks, the Presbyterian Sunday school organizer and the central figure in the mystery at Howe, Ok., has not been robbed and murdered, but is still alive and is in Fort Smith, or was at a late hour last night.

His sudden and unexplained disappearance from the Howe hotel caused all sorts of sensational stories to be circulated. The officials and his friends organized searching parties, and for two days they searched the old wells, deserted coal shafts and caves, and even had the creeks dragged in a futile search for his body.

It was yesterday learned that Burke had come to Fort Smith immediately after his sudden departure at Howe.

WIDOW TRAVELS AS HOBO

WOMAN STARTS FROM DENVER FOR LOUISIANA, MO., BY FREIGHT TRAIN.

HAD EXPERIENCE THAT WAS EXCITING

Mrs. Stella Gates Arrested in Kansas City After a 900-Mile Journey on Top of Box Cars and Blind-Baggage Cars.

Kansas City, Mo., July 31.—Riding from Denver, Col. on top of freight trains and on blind baggage, her hair clipped and carrying her clothes in a bundle on her back, Mrs. Stella Gates, a widow, 31 years old, was arrested yesterday in the railroad yards here just as she was about to get a train for Louisiana, Mo.

She told a story of such hardship in the municipal court that the judge dismissed her and turned her over to the Helping Hand society.

Mrs. Gates left Denver after a quarrel with her brother, with whom she had made her home, declaring that she would go to her mother in Louisiana, Mo. She did not ask her brother for money.

She walked to the railway yards, waited until night and then swung on a slowly moving passenger train, riding several hundred miles on the blind baggage. That was the easy part of the ride. After she reached Kansas there were so many towns and so many stops that she made slow progress. Sometimes she rode on the "lid," as she called the tops of the cars. Finally she had to take freight trains.

Mrs. Gates' money enabled her to get two or three meals a day without begging. It was the loss of sleep that told the most on her strength. Just before she reached Topeka, after three days on the road, she went to sleep in a box car. She was sound asleep when the train reached Topeka. When she awoke her bundle of clothing was gone. From Topeka she rode to St. Joseph and from there to Kansas City. In the yards here she was arrested by a special policeman.

Mrs. Gates has been on the road since Monday.

"I found that the treatment were so surprised at seeing me that they neglected to treat me like a hobo," she said. "I had to tip some of them, but many reversed the program and tipped me."

Business Reverses Followed Donations by John Deane.

New York, July 31.—John Deane, a lawyer and real estate operator, who, a few years ago, dropped \$100,000 into the collection plate at the Calvary Baptist church, has testified in the supreme court in supplemental proceedings in a suit of one of his creditors, that today his entire worldly possessions consist of a suit of clothes he wears and \$7 in cash.

Mr. Deane had given away large sums of money previous to his business reverses. He gave \$100,000 to the University of Rochester, and, besides the \$100,000 which he placed in the contribution plate one Sunday, he donated \$50,000 to the Calvary church building fund.

FINDS SHE HAS SISTER

Was Adopted When Baby and Sister Went to Another Family.

New York, July 31.—Mrs. Frederick Boylhart, wife of a Brooklyn dentist, has just discovered that she has a sister and that that sister is Mrs. Louisa Van Name, of Plainfield, N. J. When Mrs. Boylhart's adopted mother died, a month ago, she left a note saying that she was not Mrs. Boylhart's mother, but had adopted her when she was a baby.

This caused Mrs. Boylhart to make an investigation, which has led to the finding of her sister, who was similarly adopted by another family at the same time.

SEDALIA'S LEADING SPECIALISTS.

We, as specialists, recognize no superior in the treatment of chronic nervous and special diseases of men and women. We have searched the world over in acquiring special knowledge for the cause and cure of deep seated, chronic and complicated conditions that affect the human system. Our new and perfected course of systematic medication. The Modern Americanized European Method of treatment is working wonders in a large number of cases heretofore classed as incurable. Our advanced Method of direct Medication into the diseased structures in our Wonderful Inhalatorium Cabinet is unsurpassed for immediate relief. It is the most Scientific Equipment ever devised for speedily destroying the millions of Poisonous Germs that feed upon the delicate tissues that line the inner ears, the head, throat and lungs. It has gained a wide reputation for the cure of Catarrh, Catarrhal Deafness, Hay Fever, Asthma, Bronchitis and the early stages of Consumption. Many come from long distances to avail themselves of this remarkable cure.

CATARRHAL DEAFNESS

Mr. Lee is an influential citizen residing near Houstonia, Mo. He is widely and favorably known and engaged extensively in farming. He came to us suffering with the terrible effects of a long standing case of Catarrh of the head and ears. The disease had progressed to such an extent that the hearing in one ear was almost gone and the other was greatly impaired with constant noises in the ears, caused by the germs working in the tissues. His condition was rapidly growing worse and the complete loss of his hearing would only have been a matter of a short time. Mr. Lee has finished a three months' course of our Inhalatorium treatment for such diseases, the result of which can best be told by his own words.

To Dr. Casto, Chief Physician of The Dr. Camp Medical Co.

Gentlemen:—For the last ten years I have been troubled with catarrh of the head and ears. Mr. hearing was steadily growing worse. One ear was almost deaf and the other was becoming very bad with a constant ringing noise. But since taking your Famous Inhalatorium Treatment I am glad to say I am well pleased with the result, and I can strongly recommend you to all who suffer from Catarrhal Deafness. I will cheerfully answer all communications in regard to my case.

J. W. LEE, R. R. 1, Houstonia, Mo.

TO ALL WHO SUFFER

Come to our offices and we will make a thorough, searching and scientific examination of your case, Free of Charge, and if we find that your condition will yield to the influence of our advanced methods, then we will take your case. Our charges are reasonable. We accept no incurable cases.

HAD TO LEAVE GERMANY

FOUR THOUSAND FOREIGN LABORERS DURING THE YEAR 1908.

CASE OF WHOLESAL POISONING BY GAS

People Fall Unconscious From Their Seats at the Supper Table—A Fine That Has Already Cost \$1,000,000.

By Malcolm Clarke.
Cable to the Democrat-Sentinel.
(Hearst News Service.)

Berlin, July 31.—Germany's drastically efficient method of dealing with undesirable aliens is strikingly illustrated by an official report issued this evening, announcing that during 1908 4,000 foreign workmen were expelled from the country.

The authorities were animated by various motives in carrying out these expulsions. Numerous foreign workmen were expelled for no other reason than that they were guilty of breaches of contracts into which they had entered with their German employers. Those foreign workmen who had failed to fulfill the conditions of labor were ordered by the police to leave the country, and were kept under strict police supervision until they had been ejected beyond the frontiers of the country.

Other foreign workmen were expelled because they conducted themselves in a disorderly way, thereby becoming a public nuisance. Others again were ordered to leave the country because they perpetrated different offenses which brought them into collision with the German law.

The majority of the workmen thus expelled were men of Polish nationality from Russia, Poland and Galicia.

A case of wholesale gas poisoning, which bordered on a catastrophe, occurred last Friday night at the little Westphalian town of Hoerde under remarkable circumstances.

The main gas pipe, which connects the smelting furnace with the mines, had been cleaned, and some one forgot to close one of the ventilators. When the gas was again turned on the fumes escaped in a terrible volume and with great swiftness, filling the entire neighborhood. All the persons in the street at the time fell to the ground insensible and those having to their assistance met the same fate. Soon the whole street was filled with apparently dead and dying people.

The fumes even penetrated the houses in the vicinity. More than one family at supper fell unconscious from their seats. The panic was indescribable. The alarm signals were sounded and the gas was finally turned off.

Doctors, assisted by police and firemen, conveyed the victims numbering over one hundred, in cabs, carts and furniture vans to the hospital, which was besieged throughout the night by anxious relatives. Happily the case proved fatal, though many were several hours regaining consciousness. All were considered able to leave the hospital today.

Those who, in the beginning of March last, during the recent Balkan crisis, followed the opening reports of the trial of fifty-three Serbo-Croatians, at Agram, or Zagreb, the capital of Croatia-Slavonia, on the charge of conspiracy against the Hungarian monarchy, supposed that the case, founded on obviously trumped up or completely irrelevant evidence, had long since fallen to the ground.

They may be surprised to hear that the so-called trial is not yet half through, although the eighty-eighth hearing was reached on Saturday last, and that the witnesses for the prosecution are still being examined. At any rate the case will last at the lowest computation, to the end of the year, when the costs will have amounted to something like \$1,000,000.

Yet it was only too clear, first from my reports of the opening stages of the trial, which I attended as your special correspondent, and secondly from the daily reports of the subsequent sittings, which I have by me now that on the one hand the prosecution has not a shadow of a case, and on the other hand that the trial is a mockery of justice.

The evidence either is ridiculous, as when it consists of statements that the prisoners wore shirts printed in the Serbian colors or sieve links with Serbian arms, or used the ancient Serbian alphabet, which is officially employed by Emperor Francis Joseph himself in certain circumstances, or it is manifestly spurious, being tendered by petty officials almost openly bought over by the police, or by such ignorant peasants as one who, being asked by counsel what Serbia was, replied that he was not a woman.

The conduct of the trial is a travesty of justice. The accused not only have been in prison since August last, but have since the trial began been constantly, by order of Judge Tarabocchi, sentenced to twenty-four hours' and forty-eight hours' confinement in cells "without light and without food," whenever they made the slightest protest against the statements of the prosecution. Their own witnesses have one and all been rejected on various pretexts by the court, the result being that no evidence for the defence will be taken at all.

Finally, the counsel for the defense, including Dr. Hincovitch and Dr. Modakovich, have been over and over again fined from 50 to 200 crowns by the judge whenever they protested against the methods of the prosecution.

To remind European opinion that this trial is still being carried on with the same unheard-of methods, a public meeting has been held in the Salle des Societes Savantes, of Paris, under the patronage of MM. Denys Cochin and Joseph Reinach, and the presidency of M. Emes Denis, professor at the Sorbonne, and a member of the Hungarian academy. A resolution was carried unanimously which appealed to the Hungarian nation, its representatives, and its press, to urge the interests of humanity and of the good name of Hungary herself that this iniquitous process be abandoned.

Much sympathy is caused among the Austro-Polish aristocracy by the death of Prince Stanislaus Jablonowski, who yesterday committed suicide on his Bursztyn estate in Galicia by shooting himself with a revolver.

He belonged to one of the most distinguished Polish families. His ancestors include Prince Stanislaus, distinguished as a successful general in the seventeenth century, who effected the election of John Sobieski to the throne and played a distinguished role in liberating Vienna from the Turks. His grandson was made an Austrian prince. The grandfather of the prince who has committed suicide was an eminent Austrian diplomatist.

Prince Stanislaus, whose extravagance threatened to dissipate his great wealth, was for a long time under guardianship, and lived for some decades in complete retirement. Of late years this amiable and gifted prince was the victim of melancholia, and committed suicide at the age of sixty-three, when left for a moment unguarded by his family.

THE TEST WAS A SUCCESS

WRIGHT WENT OVER STRAIGHT-AWAY COURSE, CARRYING A PASSENGER.

GOVERNMENT WILL BUY THE MACHINE

Speed Averages Forty-Two Miles an Hour—Taft Arrives Too Late to Witness Flight—Thousands Were Present.

Washington, July 31.—Orville Wright triumphantly completed the final and most severe test of the Wright aeroplane at Fort Myer yesterday afternoon, making a straight-away fly with one passenger, five miles, to Shooters' Hill, near Alexandria, Va., and return.

The time was 16:42, not including any time for the turn, and the speed was almost forty-two miles an hour. The government will buy the aeroplane for \$25,000 and pay the bonus of \$2,500 for every mile of increase of speed above forty miles an hour.

President Taft arrived on the scene just too late to see the flight, which was witnessed by thousands of people.

When Wright left the field at Fort Myer he was 100 feet in the air. A quarter of a mile away he was 200 feet in the air, not because he raised the craft higher, but because the ground dropped away beneath him. He flew in a straight line. Straight along he went and presently he was 300 feet in the air.

The sound of the engine faded away as the distance increased. At first it was a noiseless roar—the loud explosions of the four cylinders of the gasoline engine. Then the sound dropped steadily in volume until the roar was but a murmur, and presently there was no sound at all, but the aeroplane went on and on, its great white planes catching the glint of the little sunlight that was left.

A mile away the machine could still be seen quite distinctly, although the planes were getting a bit hazy in the soft light. The black of the motor and the two passengers, however, stood out clearly against the southern sky. On he went, flying at, maybe, more than forty-two miles an hour.

A cross wind from the west forced him a bit out of his course. Those with field glasses watched with zeal and talked aloud about what the man in the machine was doing. He made his turn to the left, dropping downward a little—too much it afterwards developed—for he later struck a downward trend of wind and was forced to climb upward, which lessened his speed, and speed was most important, involving the rich prize.

It seemed a very long time before the machine came back into view, and the crowd at Fort Myer wondered if Wright had been compelled to land at Shooters' Hill, but in a very short time the field glasses picked him up. "There he comes," the people yelled, and there were many cheers.

Cigarette Day at Minneapolis

Special to the Democrat-Sentinel.

Minneapolis, July 31.—Minneapolis is cigarette mad today, as nearly all the tobacco dealers of the city are engaged in a free distribution of the new pipes among their customers.

This sudden liberality of the dealers is due to their desire to dispose of all cigarettes on hand before the anti-cigarette law goes into effect at midnight.

BILL PASSED THE HOUSE

AT 9:10 O'CLOCK LAST NIGHT THE HOUSE ADOPTED CONFEREES' REPORT.

THE MAJORITY WAS VERY NARROW

Only Twelve More Congressmen For Than Against It—Nineteen Republicans Had Courage to Register Against Their Party

Hearst News Service.

Washington, July 31.—The Payne-Aldrich tariff bill as amended in conference and approved by President Taft passed the house at 9:10 o'clock tonight by a majority of twelve votes. The total vote was 195 to 183.

Nineteen republicans voted against the bill and two democrats for it. The bolters were:

Republicans—Carey, of Wisconsin; Davis, of Minnesota; Gronpa, of North Dakota; Hansen, of Iowa; Hubbard, of Iowa; Keifer, of Ohio; Lenroot, of Wisconsin; Lindbergh, of Minnesota; Mann, of Illinois; Miller, of Minnesota; Murdock, of Kansas; Nelson, of Wisconsin; Nye, of Minnesota; Poindexter, of Washington; Southwick, of New York; Steenerson, of Minnesota; Stevens, of Minnesota; Volstead, of Minnesota, and Woods, of Iowa.

The democrats were Broussard and Etopinall, of Louisiana.

The passage of the bill was accomplished amid great confusion. The house and gallery had kept tally, and before Speaker Cannon could announce the vote it was known that the bill had passed and a great demonstration followed. The republican members leaped to their feet to cheer Payne and crowded about him to shake his hand and offer congratulations. The crowds in the galleries cheered and waved their handkerchiefs in great enthusiasm.

Speaker Cannon stood for a couple of minutes, with raised gavel to permit the confusion to subside. Then he announced the vote and the cheering was renewed.

The democrats sat silent, but viewed the scene with broad smiles. Their orators have promised the republicans that the bill will cause the loss of many republican seats in the next congress, and they were not sorry that the end had come and the bill was through the house.

The senate will take it up at Monday's session, to which time it adjourned today.

There are indications that it will have passed the senate and be in the president's hands by the middle of next week, as the threatened filibuster by southern senators because cotton bagging was not kept on the free list by the conferees is not meeting with any encouragement.

Senator Bailey is not as keen on conducting a filibuster as he was two days ago.

The final vote on the bill was had in the house after the day was given over to debate. Payne and Clark made statements for their respective forces, and at times there was much enthusiasm displayed.

BACK TO JAIL FOR KING

Revoked Parole of Man Who Deserted His Family.

Criminal Judge Louis Hoffman Saturday revoked the parole of John King and ordered him remanded to the county jail to serve the remainder of a sentence imposed on May 2.

On that date King was convicted of wife abandonment and was fined \$50 and costs and sentenced to thirty days in the county jail. He served thirty-three days and was paroled on June 5 on his promise to quit drinking and support his family.

He began drinking again and refused to provide sustenance for his wife and children, hence the revocation of the parole.

King will now be compelled to serve an additional seventy-two days in jail.

ANNUAL REUNION AUGUST 7

The Kentuckians and Old Settlers at Liberty Park.

A joint meeting of the Old Settlers' Association of Pettis County and The Kentuckians was held at the office of C. C. Lawson, secretary of The Kentuckians, Saturday afternoon, at

which meeting all arrangements were perfected for the second annual reunion of the organizations, to be held at Liberty park next Saturday.

The reunion will be held throughout the entire day, and promises to be one of the most delightful events of the kind ever conducted under the auspices of any Sedalia organization.

The Camp Branch band has been engaged to render music, and a negro quartette will render the old melodies.

Addresses will be made by the Rev. A. W. Kokendoffer and the Rev. J. H. Allen, while in behalf of the Old Settlers a local attorney will crate.

A sumptuous dinner will be served on the grounds at the noon hour, and during the afternoon the time will be devoted to the entertainment of the guests.

EARTHQUAKES IN MEXICO

REPORTS FROM SISTER REPUBLIC CARRY STORIES OF GREAT HAVOC.

WERE FIVE DISTINCT SHOCKS SATURDAY

The Greatest Cathedral in Mexico City Is a Mass of Ruins and Finest Harbor on the Coast Thought to Be Destroyed.

Hearst News Service.

Mexico City, July 31.—With the people already terrorized from their experiences of yesterday, five distinct earthquake shocks were felt again today in the stricken region.

All communication was shut off from Chimpancingo, Acapulco and the surrounding towns by the quakes of today, but information of the serious results of the shocks came through before the wires were down. In every instance the frightened operators at the keys declared "the town is completely wrecked."

The shocks in Mexico City today were more severe than yesterday, and not an American and but few foreigners remained indoors here tonight.

At 12 o'clock today came a shock so severe that all the clocks stopped and street cars were derailed throughout the entire city.

The great cathedral is a mass of ruins, as it partially fell yesterday, and the tremblers of today finished the work.

The Acapulco operator reported great damage to the harbor there. Many vessels are beached, and it is feared that the harbor, one of the finest on the Mexican Pacific coast, is absolutely ruined.

A FATHER WANTS HIS SON

Habeas Corpus Case Before Judge Hoffman Wednesday.

Matthew Bryson, through Attorney Bowron, instituted habeas corpus proceedings in circuit court Saturday to gain possession of his 8-year-old son, Roy L. Bryson, now in the possession of Mrs. Maud Bryson, the petitioner's wife.

The proceedings will be heard at court in chambers by Judge Louis Hoffman Wednesday.

Bryson alleges in his petition that on July 23, last, Mrs. Bryson deserted him, taking their son, whom she now deprives of his liberty.

ERNEST HUSKEY JAILED

He Is Wanted at De Soto, Mo., for Alleged Grand Larceny.

Ernest Huskey, a Missouri Pacific boiler-makers' helper at the local shops, was arrested by Deputy Sheriff James Card Saturday at the instigation of T. F. Cadwallader, chief of police of De Soto, Mo., where the prisoner is wanted for alleged grand larceny.

Huskey was locked in the county jail and an officer from De Soto will arrive for the prisoner today.

Huskey had been employed here only a few days.

Slated for Investigation.

A negro with three surnames, so he says, was arrested by the constabulary Friday night and is being slated for investigation. He was arraigned before Peace Justice Clark Saturday, facing the charge of vagrancy. He entered a plea of not guilty and was remanded to jail, awaiting trial Wednesday.

BAFFLED

MRS. HUMPHREY IS DEAD

SHE WAS A DAUGHTER OF LATE DR. WILLIS P. KING, WHO DIED ON JULY 12.

FINAL SUMMONS IN KANSAS CITY FRIDAY

Body Will Be Brought to Sedalia Tomorrow Afternoon and the Burial Will Be in Crown Hill Cemetery.

Mrs. Amanda K. Humphrey, daughter of the late Dr. Willis P. King, a former resident of this city, died from neuritis at her home at Kansas City Friday afternoon, as will be seen by the following from Saturday's Kansas City Journal:

"Mrs. Almada K. Humphrey, daughter of the late Dr. Willis P. King, died at the family home, 3031 Wabash avenue, shortly after 3 o'clock yesterday afternoon.

"Death came to Mrs. Humphrey within a few minutes of the time of day her father passed away. Dr. King died on July 12.

"Mrs. Humphrey was 41 years old April 10, last. She was born in Vernon county, Mo. On October 19, 1892, she was married to Spencer M. Humphrey, son of the late Judge James Humphrey of Junction City, Kan.

"Spencer Humphrey, who was for years passenger conductor on the Union Pacific railroad, was killed in a railway accident at Lawrence, Kan., September 22, 1895.

"Mrs. Humphrey had been ill for the past year, the last four months of which she was confined to her bed. Her death primarily was due to neuritis, but about a week ago congestion of the brain developed and she remained unconscious most of the time until her death.

"She had no children. She is survived by her mother and four brothers: Robert E., Willis P., Albert H. and Granville S. King.

"The funeral will be from the home, 3031 Wabash avenue, at 10:30 o'clock Monday morning. Services will be conducted by the Rev. Burris A. Jenkins of the Linwood Boulevard Christian church.

"Burial will be in the family lot at Sedalia, Mo., the same afternoon."

The remains will be shipped to Sedalia, arriving here at 4:25 o'clock tomorrow afternoon. They will be taken directly to Crown Hill cemetery, where interment will be made in the family burial lot.

Will Drive Their Auto Here.

Mr. and Mrs. W. H. Cloney will go

to Kansas City about August 10 to drive their recently purchased Overland automobile to Sedalia. The machine was purchased at Lafayette, Ind., and will be shipped to Kansas City on or about the date stated.

A Ball Game Today.

The Sedalia Cubs baseball team and the team of New Franklin, a strong aggregation of ball players, will show their ability in a promising game at Liberty park this afternoon.

The Cubs' lineup will be: Wilkin son, c; McGurren, p; Weikal, 1b; Speck, 2b; Owens, ss; Bahner, 3b; Mason, lf; Gimple cf; Thompson, rf.

MET AFTER MANY YEARS

CAME TO SEDALIA TO ATTEND CHAUTAUQUA AND MET OLD SCHOOLMATE.

WERE PUPILS AT NAPLES 32 YEARS AGO

James M. Barrasso, a Shoemaker at California Met Tomasino Napolitano On a Car Friday Going to Liberty Park.

A signal coincidence occurred Thursday in connection with the appearance of the Kyril band at the Chautauqua.

James M. Barrasso, a shoemaker of California, Mo., came to Sedalia that afternoon to hear the concert. During the evening he boarded the street car, destined to the park, where the attraction was to appear. Occupying seats on the same car were several members of the band.

Various topics of conversation were discussed by Barrasso and the band members, when one member suddenly turned to the subject of his native country. He was Tomasino Napolitano. He told where he was born and of having attended school at Naples. He also specified which school he attended.

Investigation revealed that Napolitano and Barrasso attended the same school at Naples exactly thirty-two years ago, and Thursday's meeting was the first the two had had in the thirty-two years.

Resigned at Courtney's Store.

John Grote, clerk at William Courtney's shoe store, resigned Saturday night, effective August 15, to become allied with the Quinn Bros.' shoe store on that date.

THIRTEEN DEAD IN WRECK

TWO TRAINS FILLED WITH LAND SEEKERS WENT TOGETHER SATURDAY.

HAPPENED NEAR COEUR D'ALENE, IDAHO

Five Cars Were Destroyed and Men Crushed Into Shapeless Masses. Sixty Were Injured, Many of Whom Will Die.

Coeur D'Alene, Idaho, July 31.—A collision between interurbans occurred at Lacrosse, a small town between Coeur D'Alene and Spokane about one mile out of here late this afternoon, and as a result thirteen are dead, sixty injured, some fatally and many seriously. Every one of five cars were damaged, and the smoker of the west bound train was jammed into twelve feet of space.

Two platforms occupied about a foot of space, the one on top of the other, with the dead and mangled between them. The lower part of the bodies of some of the victims in the telescoped car were held by the seats and crushed wood, while they became a writhing, screaming mass.

Axes were procured and strong men aimed careful blows between protruding legs and arms to break into the car and extricate the passengers. Men were taken out with their feet or hands torn off and flesh hanging in shreds, or their bodies crushed and limbs, while they still lived and were conscious.

Hurry calls were sent here for all physicians in the city and other assistance, and the calls were answered promptly. All the dead were brought to this place.

Among the seriously injured was Gus Tomblason, of Mansfield, Mo., whose legs were crushed.

The trains were choked with land-seekers and were running at a high rate of speed when the collision occurred. The east bound train was due here at 4:12 o'clock, and the west bound train, which was an extra, was running with orders to pass the regular train at Lacrosse.

It is said that the motorman of the extra was unable to hold his train with the brakes and that it ran by the switch before the train was under control or could back up.

Corn 13 Feet 6 Inches Tall.

J. L. Butterworth exhibited at the Democrat-Sentinel office Saturday a stalk of corn 13 feet and 6 inches

tall that was grown on his farm, one-half mile west of Camp Branch.

Bell Hutchinson says he has corn on his farm that is 18 feet high, three ears to the stalk, and about a pint of shelled corn in the tassel; but Mr. Butterworth, knowing that the Democrat-Sentinel staff are from Missouri, brought his sample in, so now it is up to Bell to come to the front with his 18-foot stalk or retire gracefully in favor of Mr. Butterworth.

Step ladders will be in demand in many Pettis county corn fields when the corn crop is gathered this fall.

Recovering From Typhoid Fever.

Miss Mable Shepherd, who for the past week has been laid up with typhoid fever at her home, 403 South Hancock avenue, is improving.

ATTACK ON PRESIDENT

REPRESENTATIVES FITZGERALD AND UNDERWOOD MADE IT SATURDAY.

ARE NOT PLEASED WITH TARIFF BILL

Mr. Fitzgerald, of New York, Says People Demanded Tariff Reduction, but Got White House Bulletins Instead.

Associated Press.

Washington, July 31.—The sincerity of President Taft in the matter of genuine downward revision of the tariff was questioned by Representatives Underwood and Fitzgerald when the house began the consideration of the conference report today. Mr. Fitzgerald (New York) made a fierce attack on the president and the republican party, declaring "the people have been crying for tariff reduction, but got White House bulletins instead."

Mr. Underwood thought Mr. Taft should have used his influence in the preparation of a downward revision bill at the very beginning.

The committee on rules brought in a resolution to vote on the conference report at 8 o'clock tonight.

RECEIVED A DEATH MESSAGE

C. H. Freese Called by Death of His Mother-in-Law.

C. H. Freese, a Missouri Pacific bridge and building foreman, residing at 801 East Seventh street, received a telegram Saturday morning announcing the death of his mother-in-law, Mrs. Dora Conrad, who died from enlargement of the heart at her home at Berger, Mo., Friday, aged 69 years.

Mrs. Freese left this afternoon for Washington, where the funeral and burial will be held today.

Mrs. Conrad is survived by seven children, only one child, Mrs. Freese, residing here.

On June 22, Mr. Freese was notified of the death of his mother, Mrs. Elvina Freese, at Berger, Mo.

WILL LET \$40,000 CONTRACT

H. W. Meuschke and Thos. W. Bast Going to Nevada, Mo.

H. W. Meuschke, accompanied by T. W. Bast, will leave Monday night for Nevada, where on the following day they will attend a meeting of the board of managers of the state insane asylum.

At the meeting bids will be opened for doing the work on the new buildings at the asylum, the improvements to cost in the neighborhood of \$40,000.

Mr. Meuschke will be accompanied by his daughter, Miss Louise, who will go to Joplin to visit the family of Prof. G. V. Buchanan, after which she will visit Miss Bessie Platte at Carthage.

FAIR BOARD TO MEET HERE

Talk Business at Secretary's Office Wednesday, August 4.

John T. Stinson, secretary of the Missouri state fair board, returned Friday night from Columbia, where, that day, he attended a meeting of the executive committee of the state board of agriculture.

At the meeting the members decided to hold a full meeting of the board at the office of Mr. Stinson in this city on August 4, at which meeting a new executive committee will be named.

SHE LEFT A HAPPY HOME

WIFE OF A RICH WALL STREET BROKER ELOPED WITH POOR PAINTER.

LOCATED AFTER ABSENCE OF A MONTH

Were Arrested in Reading Pennsylvania, and Held on Charge of Attempting to Poison the Deserted Husband.

Reading, Pa., July 31.—Mrs. Alice Berman, wife of a wealthy Wall street broker of New York, and Francis Jeffries, a journeyman painter of Philadelphia, are under arrest here, charged with "eloping."

The Bermans have an expensive establishment at Atlantic City and thither they go every summer when the market drowns in apathy.

When the Bermans went to their summer home several weeks ago Mrs. Berman decided that it needed painting, and after his fashion of giving his young wife (she is but 25, while he is twice that age) everything she could wish for, Mr. Berman sent to Philadelphia and had Jeffries come up and look over the house.

Jeffries got the contract and the house soon was taking on the new coat. But Berman noticed that after the first day the work did not progress as swiftly as it had at the beginning. He noticed that Mrs. Berman and Jeffries, who was a strapping young fellow of 22, used to confer a great deal over the work.

On June 27, Berman returned to the cottage to find that his wife had gone and so had the painter. His suspicions had been well grounded. He was mortified and heart broken.

The husband hired private detectives to track the couple. The chase was hard, but finally resulted in their location here.

When taken into custody Mrs. Berman became a nervous wreck. She said that she did not know just how she was led into the elopement. She said Jeffries had made love to her and she consented to elope with him.

Jeffries was put in jail so that he might not have access to Mrs. Berman, as the police are looking into a very grave charge that lies behind the chase of Jeffries and the woman Mr. Berman.

Attempt to Poison?

Atlantic City, N. J., July 31.—Chief of Police Woodruff stated yesterday that Berman had sworn out a complaint and secured a warrant charging Jeffries with an attempt to poison him. Berman said he had the testimony of one or more physicians who said he was suffering from poison.

JUDGE RICKMAN'S WEIGHT

Is Less Today Than at Any Time the Past 35 Years.

Peace Justice J. B. Rickman, whose avoidupolis Saturday was less than at any period during the past thirty-five years, is having finished an up-to-date sign, which he will place at the entrance to the steps leading to his office over Weisburgh's tailor shop as an incentive for litigants to do business with him.

The inscription on the sign will be in Latin and, according to the magistrate, will demonstrate in words the benefits to be derived from carrying on litigation when necessary in that particular channel of justice.

"THE HERO OF THE MERIMAC"

Congressman Richard Pearson Hobson Was Here.

Richard Pearson Hobson, congressman from the Sixth district in Alabama, and known the world over as "The Hero of the Merimac," was a visitor in the city Saturday, and while here registered at the Huckins hotel.

Mr. Hobson came in during the night, and went to St. Louis over the Missouri Pacific Saturday afternoon. He has been lecturing in this part of the country as a Chautauqua attraction.

COMING HOME?

Back to Sedalia, the beautiful

Queen City, and visit again the

scenes of years gone by.

The Home Coming reunion

will be held October 2, 3, 4 and

5, during the week of the Mis-

souri State Fair.

The semi-centennial of the

founding of the city will be

celebrated, and a grand wel-

come will be extended to all

who gather to commemorate

the event.

There are ex-Sedalians every-

where, but they will all be here

again at the Home Coming.

The Weather Forecast.

Local thunder storms Sunday.

SPAIN HAS MORE TROUBLES.

Poor old decadent Spain has more

trouble on her hands, which promises

before she gets out of it to eclipse

even the disastrous results of her

collision with the United States eleven

years ago. She is trying to prosecute

an uphill war in Africa and con-

currently has her hands full at home

with the suppressing of domestic in-

urrection. It is really a very serious

situation which the government now

faces. The uprising in Morocco prom-

ises to be a trying affair. France had

her hands full for a year in the asser-

tion of her suzerain power over Mor-

occo. The subjugation of the rebellious

tribes taxed her mettle, notwithstanding

the campaign were supported by the

people and her resources were ample.

Spain is badly equipped, in compar-

ison with France, for a military

enterprise of this kind. She has no

surplus resources, her credit is weak,

taxes are burdensome.

It is now evident that the Moroccan

expedition will require anywhere

from 25,000 to 50,000 men. The people

of Spain, humiliated and unnerved

by a century of ill luck in colonial

Wars, have no longer any taste for

their hardships.

In addition there is the extensive

nationalist element which is always

ready to take up arms against the

monarchy, but is bitterly opposed to

doing its military service.

If it is true that the uprising on

the Rif coast will necessitate a force

of 40,000 soldiers, as is contended by

the general in command, the Spanish

government may find itself unable to

one of justice or merit. The conflict in Africa smacks of the same flavor. It has its foundation in the colonial policy of the royalists, for which the ever increasing republican portion of the population has no taste.

King Alfonso has proven himself a capable and discreet ruler, and many of his acts have endeared him to his subjects, but it is quite possible that he may make a serious mistake in the emergency now confronting him. The prosecution of an unpopular war soon alternates support from any government, and that in which Spain is now engaged appears to have aroused the intense opposition of the people.

THE TARIFF FARCE.

In spite of the desperate seriousness with which it is taken by the president and certain of the leaders in congress the tariff fight was a huge jest.

It is enough to make a horse laugh and to impel the frisky cow to leap over the moon.

But ludicrous as it is, the spectacle is also disgusting to the people who were watching it with only mild interest. A stupendous battle raged for a few days over hides. The question was whether to put them back on the free list, where they were for years before the Dingley law was enacted or to retain a duty for the benefit of the beef trust and the political salvation of a few Montana statesmen.

To obtain this remarkable concession to the consumer (the Independent tanner) necessitated a dicker which revised the duties on half a dozen schedules.

The whole bill has been framed on the basis of you pay my back and I'll pay yours. The duties finally settled upon have no relation to the foreign competitor whatever, but depend upon how much can be obtained for one interest by trading to another. There has for the first time at this extra session of congress been no attempt on the part of the interests to conceal the fact that protection is a free-for-all grab. All the government nurtured industries are still suckling infants. It does not matter a whit whether they have grown into levithan trusts and monopolies, they are bottle-fed babies in the eyes of the high tariff advocates. And they have had the pap from Washington so long that they have come to identify themselves with the government. Their nerve never falters and their greed is never satisfied. They want all the bounty the government will give them and to get the most they bargain for cent per centum compromises.

Even if the president did get hides and one or two other articles on the free list and lumber out, what does that mean? There are a score of schedules in which the consumer has been fleeced or shamefully sacrificed. There has been no real revision of the tariff all along the line in his behalf. The traders have prevented any general or substantial concessions. But disappointing as the legislation promises to be, it will have this value: The whole system of high tariff has been discredited in the eyes of the people. They have been brought to a nearer realization of its real meaning than ever before. Its inconsistencies and injustices have never been more thoroughly exposed.

President Taft's secretary of the interior, Mr. Ballinger, is charged with a disposition to subvert the conservation policy of the Roosevelt administration. He has countermanded orders withdrawing from entry lands containing valuable waterpower sites. This has come to the attention of Gifford Pinchot, chief of the forestry service, in the department of agriculture, and he is reported to have taken the matter directly to the president. It is understood that the latter has advised Secretary Ballinger to retreat, and that he is doing so, but with bad grace and a threat to resign unless Mr. Pinchot is forced out. If any such issue has been forced upon the president, which may be doubted, Mr. Ballinger's resignation should be the outcome. He can be much better spared, considering his reported leanings in favor of the land and water power grabbers, than Mr. Pinchot, who has been a great force for good in forwarding the government's policy of looking more carefully to the husbanding of the country's natural resources.

Boston's board of health has taken another step in protecting the public from the iniquitous fly. A new regulation went into effect last Tuesday by which all food stuffs shown for sale in show windows or other places must be protected from flies and dust by screens or otherwise. To the health commissioner, who has been waging war on flies and dust for a year, the adoption of the regulation is largely due. The commissioner suggests that the board may be helped in this crusade if the public insists that storekeepers and vendors obey this regulation. More and more the ubiquitous fly is being placed under the ban. In time he will undoubtedly be as thoroughly ostracized from good society as bedbugs, lice and other vermin.

HICKS THE GROCER

THE THIRD HOUSE

To the Democrat-Sentinel.

You good citizens advertise the annual state fair and want old Sedalians to come and visit the Queen City. What have you to show in improvements? So many strangers coming every day, when they ask, what street is this, the answer is, "I don't know." Could it be possible to get names on each corner, the same as the larger cities? I am sure that is the first thing to improve your city. Regarding street improvements big cities don't care whether street car owners have money or not. They want their city improved, and the company cannot tear up tracks and make people walk. We have laws for that.—A New Citizen.

GOODBY TO CIGARETTES

The New Law Goes Into Effect in Missouri, August 15.

No longer will the lad between the ages of 10 and 18 years revel in public in the delights of the inhaled coffin-nail.

The cruel law has stepped between him and his paper shrouded love and declared him to be an offender against the law.

The youth under the age of 18 who smokes cigarettes will, after August 15, be subject to a fine, and the authorities say there is no state law they will take more pleasure in enforcing.

Provision is made for a fine of not less than \$10 nor more than \$100 for the first offense for the person selling or giving away cigarettes or tobacco for this purpose, and a limit of \$500 is fixed for the second offense.

A special provision states that one-half the amount of the fine recovered shall go to the complaining witness. The limit fine for using cigarettes is \$10.

A special charge to the grand jury is included in the bill and makes it the duty of the judge to make special mention of the two sections in his charge to the jury.

CASE FROM PETTIS COUNTY

Widow of James G. Hall Sues M. K. & T. for \$10,000 Damages.

The case of Patsy Hall vs. the M. K. & T. railroad company, which was filed in the Pettis county circuit court, has been removed to the United States district court at Jefferson City, says the Jefferson City Post.

This case is a suit for personal damages to the extent of \$10,000 for injuries that caused the death of her husband, James G. Hall, at Windsor, Mo., on the 15th of September, 1908.

Hall was engaged in transporting and hauling baggage and freight from the depot and yards at Windsor, Mo., and was carrying certain highly inflammable and explosive substance in the above company's cars when the conductor of said train is alleged to have negligently caused same to explode and injure him to the extent that he died from the injuries. For the above she asks damages to the amount of \$10,000.

New Yorker Tells Court He Is Tired of Being Called "Mr. Booze."

New York, July 31.—Joseph Van Scherneck, a baker, and his wife and son obtained from Justice Bischoff permission to change their last name to Scherber after September 1.

The baker said in Polish his name meant "Whisky," and he was tired of being called "Mr. Booze."

He also set forth that his name was

That First Dollar

Many people do not realize the significance of small beginnings. The first dollar must be saved or there will never be a fortune. Saving Money is simply a process of GROWTH. If you form the habit, an independent fortune will grow out of your small beginnings just as sure as the giant tree grows from the sapling. Everybody can save a little at a time. Financial success is simply a matter of sticking to your saving plan—making your character stronger than any temptation to spend. Open a Savings Account TOMORROW—you will never regret it.

LON WARE'S NEW SHOES

Was Handsomely Remembered by a Friend Last Afternoon.

Lon V. Ware, the accommodating county treasurer, was the happiest man in Sedalia Saturday, all because of his being kindly remembered by Daniel Brereton, of Beaman, formerly an officer of that township.

Several days ago Mr. Ware unfortunately had a pair of shoes stolen from his office. The theft was chronicled in the columns of the Democrat-Sentinel at the time and was read by Mr. Brereton.

After the publication of the theft, the "thief" became uneasy and returned the shoes. Mr. Brereton did not know of this fact, and Saturday he presented Mr. Ware with an elegant fit of fine shoes, of the style worn by the Dutch of Holland, which the treasurer accepted with profuse thanks.

Lon was dumfounded when Mr. Brereton's kindness became known, and it was with childish pride that he exhibited the gift to Deputy Sheriff Menefee and Deputy Collector Hanley, emphasizing the fact that trouble would ensue if any miscreant attempted to steal that pair.

HAS AN INVENTION

Local Man Has Taken Preliminary Steps for Patent.

Mr. J. L. Cone has made application to the patent department for a caveat—which is a preliminary to getting a patent—on an invention which he has perfected. The machine is a combination for carpentry work and consists of a planer, rip saw, cut off, emery wheel and shaper all built on one frame. The machine is very ingenious in that the same engine that drives it also acts as a traction engine moving it around from place to place.

Mr. Cone will no doubt get his patent, and should make money out of it, as he states it is a machine long needed in the carpenter's work.

Clinton Will Meet Requirements of K. of P. Commission.

Clinton, Mo., July 31.—Clinton business men will meet promptly the requirements of the Knights of Pythias commission, which asked that the \$10,000 cash subscription for the location of the home there be guaranteed by August 1st.

At a meeting of business men held in the court house Friday morning there was not only a large attendance, but an enthusiasm that meant victory.

It was decided to guarantee the \$10,000 first and subscribe it afterwards, and every business man present gladly put his name to the guaranty.

TAFT JOKES SENATOR STONE

Warns Missourian About Future Pugnistic Encounters.

Washington, July 31.—Now that Senator Stone's little fracas with a negro Pullman car waiter has ended happily for everybody concerned, with the exception of the waiter, the friends of the Missouri senator in Washington and elsewhere are having a great deal of fun at the senator's expense.

Even President Taft enjoyed the predicament of Mr. Stone. The president discussed it with the senatorial tariff conferees who called upon him yesterday following the occurrence on the Pennsylvania railroad train.

As the conferees were leaving the White House the president sent word to his "old friend, Bill Stone," that he should be more careful about where he pulls off his pugilistic encounters, calling attention to the fact that it is without the province of the president to use his pardoning power for alleged offenses committed in the states.

Letters and telegrams, congratulating Mr. Stone on the outcome of the case continue to pour into the senator's office at the capitol.

CASES IN BANKRUPTCY

Two of the Four Applicants Reside in Sedalia.

In the United States district court here three voluntary and one involuntary bankruptcy cases have been filed, says the Jefferson City Post. Two of the cases are Sedalians.

Henry G. Wilson, a railroad brakeman of Sedalia, wants to be a bankrupt. He gives as his liabilities \$173.35 and assets to the amount of \$124.

Cornelius R. Meyer, a brakeman on the M. & K. T., who resides in Sedalia, also wants to be adjudged a bankrupt. He has liabilities to the amount of \$522.75 and assets to the amount of \$195.

William H. Leonard, a stock dealer of Columbia, wants to be a bankrupt. He has liabilities of \$1,149.49 and assets of \$545.

Philip Silverman, of Pittsburg, Pa., has filed a petition asking that the Lead and Zinc Development company, of Tipton, be adjudged bankrupt, they having liabilities to the amount of \$603.

NEARLY A CENTEDARIAN

Mrs. Burtner Died Yesterday in This City, Aged 92 Years.

Mrs. Elizabeth Burtner died from general debility at the home of her granddaughter, Mrs. Al Clark, 237 South Stewart street, at 7:40 o'clock Saturday evening, aged almost 92 years.

Mrs. Burtner was a remarkable woman. She was the widow of the late Andrew Burtner, for thirty-five years or more a prosperous and well-known farmer of near Tipton.

In 1899 Mr. Burtner died and his widow came to Sedalia, where she has resided alternately with her daughter and granddaughter.

She was the mother of eight children, four of whom are living, likewise eighteen grandchildren, eighteen great-grandchildren and six great-great-grandchildren.

The children are: John Burtner, of Webster Groves, Mo.; A. C. Burtner, of Lakeside, Cal.; A. J. Burtner, of California, Mo.; and Mrs. Clara M. Smith, of Sedalia.

Mrs. Burtner was a member of the Presbyterian church of Tipton, but had not affiliated with any denomination in this city. She did not belong to any lodge.

Mrs. Burtner's illness dated back several months, although she had been bedfast only one month.

The remains will be shipped to

Clarksburg, Mo., tomorrow, where funeral services and burial will be held.

HAS GIVEN UP PRACTICE

Dr. N. U. Howard Saturday Closed His Office in Sedalia.

Dr. N. U. Howard, for several years past one of Sedalia's best known dentists, Saturday gave up his practice in Sedalia and will leave tomorrow for his old home at Knobnoster, where he will reside in the future.

Dr. Howard has not decided on his future plans, but no matter what he does the best wishes of every acquaintance will accompany him to his new place of abode.

Accustomed to It.

"Yes," said Rivett, "I went to a five-o'clock tea with my wife yesterday." "Gracious!" exclaimed Chumley, "didn't it nearly drive you crazy?" "Oh, no, I didn't mind it. I own a boiler shop, you know."—Catholic Standard and Times.

Time.

"It's a sort of curious," said Uncle Jerry Peebles; "but when a man is workin' for another man he's always a wantin' to go and see the ball game. When he's workin' on his own time he gets stingy with it and can't spare it."

Meaning of "Caesar."

"Caesar" is said to be a Punic word meaning "an elephant." There are old coins stamped on the one side with Divus Julius, the reverse having S. P. Q. R., with an elephant, in allusion to the African original.

A Good Game.

"I can't understand Brown at all. He's not a bit like other men."

"Is that so?"

"Yes. He actually said it was a good game of baseball, and the home team lost."

MR. CALLAHAN AGAIN BUSY.

This Time He Starts a Shirtwaist Box, But the Fates Are Persistently Against Him.

"Now, John," protested Mrs. Callahan, "what's the use? You'll never finish it. You'll just spend several dollars and litter up the whole yard."

"I'm making this," suggested Mr. Callahan. "Seems to me when your husband makes you shirtwaist box you might appreciate it instead of acting like that." Mrs. Callahan sighed. She looked about the yard and sighed some more.

There was the hole a foot deep where Mr. Callahan had started to dig a cellar. There was a pile of rocks with the specially made zinc tank in the middle where he had started to make a "rockery" with an aquarium in it.

There were the four posts starkly upright in the ground where he had started to build a shed and stopped. Across the dividing fence were three rough furrows made by a hoe in the preliminary steps toward making a garden. In the dividing fence was a gap filled with an old shutter and two planks—Mr. Callahan had started to make some pickets to fill the gap, but had put the job aside for another day.

Now it was a shirtwaist box. He had read somewhere how easy it was to make a shirtwaist box, and he was engaged on it.

"Don't you worry," he said. "I'll finish this all right." He nailed another block on the bottom of the box to hold one of the rollers, and in trying to bore a hole in it, split it and had to try again. The second attempt split the bottom of the box, but nobody could see it unless the box was turned upside down.

Mrs. Callahan, seeing these things went in the house. Two hours later she looked out the window. Mr. Callahan was tacking some wire netting across a window in the stable.

"Did you finish it?" she asked, going out. Mr. Callahan looked over his shoulder from where he stood on the wheelbarrow to tack up the netting.

"No, I didn't finish it," he said. "How do you suppose I can finish it without hinges? Somebody's been at my toolbox and taken every hinge I had. I'll have to get some to-morrow."

"Couldn't you get a pair of hinges at the store out here?" ventured Mrs. Callahan. Mr. Callahan scowled.

"Walk all the way over there?" he said. "I should think not. You talk as if I wasn't tired enough to drop. I would have finished it if I had those hinges. All it needs is that and the covering."—Galveston News.

The Wonderful Amazon.

Although not the largest or longest river, the Amazon is the most wonderful river in the world, with a mouth 150 miles in width, and with a force of water that repels, or at least over-comes, the ocean to a distance of more than fifty leagues. Yet, in spite of the weight of the river, the tide makes its influence felt for 500 miles from the coast. The easterly trade winds blow almost invariably upward, so as to be ready to help the vessel against the adverse currents.

Functions of the Happy.

A happy man or woman is a better thing to find than a five-pound note. He or she is a radiating focus of goodwill; and their entrance into a room is as though another candle had been lighted. We need not care whether they could prove the forty-seventh proposition; they do a better thing than that, they practically demonstrate the great theorem of the Livableness of Life.—Robert Louis Stevenson.

Bottle Suicide.

Drunkness for deepest troubles is often a preventive or a substitute for suicide, a "temporary suicide" as it were. Many men too cowardly to pull the trigger or take gas, deliberately and viciously commit suicide by the slow alcoholic route, and even say it is an easy way to die. And for this alcohol gets the blame.—Exchange.

Faith and Hope.

Doubts may flit around me, or seem to close their evil wings, and settle down; but, so long as I imagine that the earth is hallowed, and the light of heaven retains its sanctity on the Sabbath—while the blessed sunshine lives within me—never can my soul have lost the instinct of its faith.—Nathaniel Hawthorne.

Necessity of Beauty.

Schiller in his esthetic and philosophical essays wrote that "Beauty alone confers happiness on all," that under its influence men forget their limitations. Happiness is our being's end and aim. And without beauty even happiness in its perfect flowering is impossible.

FIRE RAGED ENTIRE DAY

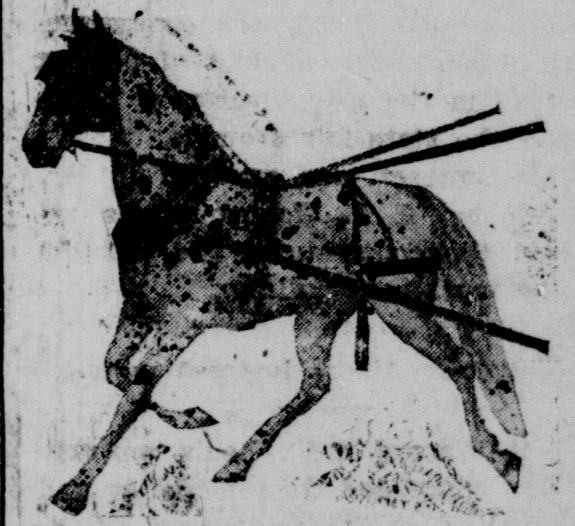

The Flames Were Fanned by a Howling Gale Entire Time.

Associated Press.
Osaka, Japan, July 31.—Fire which has been raging here since early this morning at 9 o'clock tonight had consumed one-fifth of the town, and was being fanned by a howling gale.
The city is the manufacturing center of 300,000 inhabitants.

The past two weeks we have shown you the illustration of the improved New Idea Harness Saddle, and called your attention to the improvements over the old style and its faulty parts.

The above cut shows a set of harness made with the New Idea Harness Saddle. This is a high grade \$12.75 harness. We will make a special sale price for one week of \$10.00, beginning Monday, August 2. On the same and trace or V shaped breast collar with double neck fork and line rings. This is a great opportunity for a bargain in harness. It will pay you to buy during the coming week, even if you will not be in need of a set for the next two or three months.

The New Idea Saddle is worth from one to two dollars more to any man using harness, yet you get it at the same price of the old, inferior style. We are sole owners of the counties of Pettis, Cooper, Henry and Saline.

JUDGE AYERS MUCH WORSE

Condition Became Alarming Yesterday—Children Called Here.

Judge Manlius A. Ayres, who for months past has been ill alternately at his home and at Maywood hospital, suffered a severe relapse Saturday and his condition is critical.

Saturday his son, Edward P. Ayres, of Windsor, and his daughter, Mrs. C. L. Allen, of Harrisonville, were summoned here by telegram on account of their father's condition.

Judge Ayres is one of Sedalia's best known citizens. He was for a term of years a peace justice for this township and has hundreds of friends who will learn of his relapse with regret.

COUPLER OF CONDUCTOR

J. F. DURBIN SELLS ONE-FIFTH INTEREST IN A PATENT FOR \$25,000.

BIG FORTUNE IN SIGHT FOR INVENTORS

The Coupler Likely to Become as Generally Used as the Westinghouse Air Brake on All Railways.

Fort Scott, Kan., July 31.—Frisco Passenger Conductor James F. Durbin arrived home Thursday night at 9 o'clock from Denver, where, with his son, Votrow F. Durbin, both of whom patented the Durbin automatic safety car coupler, he contracted for the sale of a one-fifth interest in the patent for \$25,000.

A cash payment of \$2,000 was made yesterday morning in Denver. \$8,000 will be paid by Monday, and the other \$15,000 is to be paid within the next four weeks' time.

And this is not the only streak of good luck of the father and son. After turning down an offer of \$55,000 for fifty-one shares of the stock or a controlling interest, they became head of what will be known as the Durbin Automatic Safety Car Coupler syndicate, and \$350,000 shares at \$10 a share will soon be offered for sale.

The Durbins sold this one-fifth interest in the patent to O. Benjamin Haley, a Colorado ranchman, who owns thousands and thousands of acres of land in the silver state, and who is also concerned in railroad building.

He had a representative inspect the coupler at a trainmen's convention some weeks ago and later made an offer. On the trip to Denver the Durbins were hunted up by another syndicate and offered a big sum for a controlling interest in the patent. The last men they saw at the Denver union depot was a representative of this party, who made overtures to buy up the major fraction of the interest in the coupler.

Conductor Durbin rightly believes a fortune is in store for him and his son as a result of the coupler. Of the 17,000 appliances on couplers it seems the most satisfactory of all. Representatives of the interstate commerce commission have seen the coupler and in all probability will approve it and force all railroads to equip cars with the safety appliance.

With this coupler in use cars can not become disengaged, even though an entire train be telescoped. Mr. Haley, who buys a one-fifth interest in the patent, has unlimited capital and could finance the building of a factory where these couplers could be turned out for use. Once in operation the royalty coming in from the use of the couplers would amount to thousands of dollars a year to the Durbins.

Conductor Durbin, who has railroaded for thirty-five years, is not going to give up his job because of his good luck in this particular. Neither is his son, Votrow, a machinist, going to abandon his work as a machinist. They will continue railroading for a year or two or until they get their patent in operation, when they expect to retire. The coupler is without doubt the best yet produced and will in the next few years make the Durbins wealthy.

A DOUBTING THOMAS.

Had His Falling Hair Stopped, and Dandruff Cured, Without Faith.

H. B. Fletcher, Butte, Mont., Oct. 20, 1899, says: "Like many other people, I have been troubled for years with dandruff, and within the last few months my hair came out so badly that I was compelled to have what I had left clipped very close. A friend recommended Newbro's Herpicide. I confess that I doubted his story; but I gave Herpicide a trial, now my hair is as thick as ever, and entirely free from dandruff." "Destroy the cause, you remove the effect." Herpicide is a delightful hair dressing for regular use. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. The home of Mark S. Green, a contractor, at 621 East Fourteenth street, was entered by thieves while the family was attending the Chautauqua Friday afternoon, but nothing of value was taken.

Entrance was gained through a pantry window. The intruders ransacked the place thoroughly, in hope of finding valuables, but took nothing.

"TRIP ON WARSAW LIMITED"

Local Talent to Present It Friday Night, August 13th.

Miss Evelyn Streiff, of Clinton, who so successfully played the role of leading lady in the Elks' entertainment recently given at that place, will be one of the cast of "A Trip On the Warsaw Limited" at Sacred Heart hall, Friday evening, August 13th.

The farce will comprise the best local talent of the city, notably among them Miss Louise Rast, graduate of the Dillenbeck School of Oratory, Kansas City. Many of the young matrons acting as chaperones will also take part.

The entertainment is under the management of Mrs. J. B. Mockbee, who promises even a more delightful evening than that of "Union Station." The proceeds will be devoted to the new convent fund.

WORK AS FAMILY SERVANT

Found Lucrative By Woman Who Got Away With Large Sum.

New York, July 31.—When Mrs. Theresa Smith, a comely young woman of 22 years, who lives with her husband at No. 1025 Boston road, was found guilty of grand larceny in the court of general sessions. Assistant District Attorney White-side told Judge Rosalski that in his opinion the woman while employed as maid had stolen valuables from her various employers to the extent of \$4,000.

Her home on Boston road was elaborately and expensively furnished, and she employed two maids. Judge Rosalski told the indicted woman he would give her one week in which to make some effort at restitution, otherwise he would impose the full penalty of ten years in the penitentiary.

WANT THE CHIEF OUSTED

Say He Refuses to File Complaints Against Saloon Men.

St. Paul, Minn., July 31.—A petition signed by Dr. C. W. Brown, president and several prominent members of the Law Enforcement League of St. Paul, was laid before George T. Simpson, attorney general of Minnesota, yesterday, asking Mr. Simpson to take proceedings to oust Chief of Police O'Connor and other officials of St. Paul from office.

The petition alleges the chief and other officials have repeatedly and persistently refused to file complaints against certain saloonkeepers who have failed to observe the Sunday closing law.

RENTED TO HIM; BROKE LAW

Unique Defense Made in Suit By Landlord Against Tenant.

Springfield, Mo., July 31.—Unique is the defense set up in the answer of Lonie Jacobs to the petition of C. F. Prehm, who seeks to recover \$705 for rent. The case came here on change of venue from the Jasper county circuit court.

Prehm recites in his short petition that Jacobs owes him for rent on a building in Galena, Kan., a mining town near Joplin.

Jacobs in a lengthy answer cites Kansas statutes which forbid owners of buildings from leasing their property for purposes of conducting "joints" or disposing of liquor therein.

A COUPLE OF FIRES

Insured in the Pettis County Mutual Company.

The home of I. C. Remel, a tenant on the John G. Senior farm, one and one-half miles north of Stokely, caught fire from a fire last Tuesday, entailed a loss of \$150 on the contents and \$25 loss on the house. Insurance was carried in the Pettis County Mutual Fire Insurance company, and settlement was made with Mr. Remel Saturday by A. S. Eber-sole, local agent.

A farmer named Gardner, residing on the Rissler farm, near Baman, had three tons of hay destroyed by fire last Wednesday. The loss was covered by insurance in the Pettis County Mutual Insurance company.

BOUGHT A DIAMOND RING

County Collector J. L. Sullivan Got a Bargain Saturday.

A diamond ring, valued at possibly more than \$200, was bought at a greatly reduced price by County Collector John L. Sullivan Saturday, the purchase being made from Constable L. H. Kahrs.

The ring was the property of R. Sater, former owner of the saloon at 212 South Ohio avenue. The ring was being kept in a local bank. When Mr. Sater disposed of his saloon the Anheuser-Busch Brewing company, whose building Mr. Sater occupied, attached the ring for the payment of rent.

The ring was sold at public auction Saturday, Mr. Sullivan being the purchaser. It brought \$125 cash.

THEY VOW NEVER TO WED

Girls Will Pay Penalty When Seen With Man.

Columbus, Ind., July 31.—Eight young women took a vow at the home of Mr. and Mrs. Maurice Frohman never to marry. The girls who refuse to have their names on marriage certificates are Nellie and Bernina Carter, of Edinburg; Florence Dietz and Florence Miller, of Madison; Ona Gore, of Indianapolis, and Katherine Herrel, Hattie Watts and Lula Patterson, of this city.

Each will pay a penalty when seen on the streets with a man. Miss Bernina Carter was elected supreme spinster.

Columbus has also an organization known as the Consolation Club, the members of which are suffering from the summer absence of their sweet-hearts.

Prosecuting Attorney W. V. O'Donnell was named chief counselor of the club, and Miss Elsie Menett, who returned from Wilson college, in Pennsylvania, last week, is the exalted weeper.

KANSAS "JOINTS" RAIDED

Rocks Thrown by Women Who Resisted the Officers.

Associated Press.

Pittsburg, Kas., July 31.—In a liquor raid at Radley, near here, last night, Assistant Attorney General John Marshall and Sheriff Merriweather were resisted by a number of Austrian women keepers of a place.

After a lively fight, during which rocks were thrown at the officers and they were struck with clubs, the women were subdued and the liquor in the place destroyed.

This is the second time the women at Radley have fought the officers when the latter were making raids in an attempt to enforce the prohibition law.

WRIGHTS TO GET \$35,000

Averaged 42.53 Miles an Hour on the Test Friday.

Associated Press.

Washington, July 31.—Orville Wright traveled at a date of 47.431 miles an hour in his flight yesterday in returning from Alexandria, the end of the course, to Fort Meyer.

This is the official report made by the war department today. His speed from Fort Meyer to Alexandria was 37.735 miles, making an average for the round trip of 42.583 miles an hour.

The Wrights will receive \$30,000 for the aeroplane and \$5,000 as a bonus for an excess in speed over the contract required of the men.

NOTES OF THE LIBRARY

MISS MARGARET CURRAN IS TO PRESIDE AT WEEKLY STORY HOUR.

TO BE HERE THE NEXT THREE FRIDAYS:

Comes From the Pittsburg Library, Where a Staff of 100 Persons is Devoted to This Particular Class of Work.

Miss Margaret Curran, who is making a specialty of children's work in the Carnegie library at Pittsburg Pa., is to tell the stories at the library the next three Friday mornings at 10 o'clock. Sedalia children are fortunate to have this opportunity. The Pittsburg library is the foremost library in the world in this work with children. There are probably 100 people on the library staff, who devote their whole time to this phase of the library work. Next Friday morning Miss Curran will tell the children the tale of the "Awakening of Brunhilde."

Mr. S. K. Bullard has given the library over 75 books of real value. For a long time we have wanted a duplicate set of Scott's novels in a good edition to put in the children's room, and now, thanks to Mr. Bullard, we have it. There are standard books on a variety of subjects. But what is particularly appreciated by the library are the many excellently illustrated books of travel and the art books. Of the art books, "The New Gallery of British Arts" is a valuable addition to the library. It would be a long time before this library could afford to purchase the expensive art books. This is a large collection of folios, and there are 121 steel engravings of British masterpieces.

New books of the week:
 Allen, J. L.—Bride of the Mistletoe.
 Barr, Amelia E.—Hands of Compulsion.
 Bell—Oh, Christina!
 Chambers, R. W.—Special messenger.
 Crawford, F. M.—White Sister.
 Davis, R. H.—White Mice.
 Glasgow, Ellen—Romance of a Plain Man.
 Hichen—A Spirit in Prison.
 Inner Shrine.
 Lucas, E. V.—Over Bemerton's.
 Stowell—Don Coronada Through Kansas.
 Tracy—Morely Players.
 Vance—Bronze Bell.
 Weller—A Year Out of Life.
 Warner—West Point Colors.

Warren—Peter-Peter.
 Webster—A King in Khaki.
 White, William Allen—A Certain Rich Man.
 Williamson, C. N. and Mrs. A. M. L.—Set in Silver.
 Wright—Poppea of the Postoffice.
 Juvenile:
 Greene—A Lincoln Conscript.
 Harvey—On Track and Diamond.

New Safety Device Effective.
 The Simmen's automatic safety device, which was installed on the Atchison, Topeka and Santa Fe railway between Peris and Highgrove, Cal., one month ago, has proved satisfactory. Each train, as it passes over the road, automatically makes a record on a sheet in the train dispatcher's office. At regular intervals the dispatcher is in telephonic communication with the engineer. The electric switches are so interlocked that the dispatcher cannot bring two trains together in the same block. If the speed around a curve is too great the mechanical device slows it down to the safety point.

The recording mechanism in the dispatcher's office consists of a large table on which is spread a long sheet of paper, divided into sections. By an automatic arrangement a complete record of all trains is kept before the eye of the dispatcher, who can at any time signal the engineer to stop, slow down or proceed as he may wish. All signals are transmitted by means of a third rail.

Novel Railroad Danger Signal.
 A remarkable invention for preventing railway accidents has been tried with success on the western railways of France. If the driver for any cause passes an adverse danger signal the apparatus blows a whistle on the engine continuously, and also throws up a small light under the engine driver's nose. This will render all accidents, except willful ones, impossible.

Probate Court August 9.

Probate Judge D. E. Kennedy will open court on August 9. Seventy-five estates will be settled, a larger number by far than ever before recorded on the probate court docket.

NEWSPAPERS AND MISSIONS

The Former Is Doing Great Work in Behalf of Latter.

A few years ago the newspapers almost entirely either ignored or misrepresented the work done in mission fields. Now, probably largely because of the impartial testimony of well known business men, newspaper correspondents, professional men, who have visited the mission fields and given unqualified approval to the workers and their work, are much more friendly and intelligent on the subject and are doing a great deal to silence ignorant critics.

In their work for the saving of souls the church people are uniting. A noble example to the denominations at home.

When Dr. John Scudder sailed for Ceylon, in 1819, he was the only medical missionary in the world, and what marvelous results have followed him. Since then ten of his children and fifteen grandchildren became missionaries, the latter still in the field. In spite of "hard times" last year, the offerings to foreign missions, instead of falling off, increased \$602,000 from the United States and Canada. The increase in the foreign field amounted to \$1,360,000. The increase in native converts was 160,570. It took 100 years to gain the first million converts, twelve years for the second and now they come at the rate of a million every six years. Last year the church membership of American Protestants gained 1½ per cent. The membership of American missions gained 12 per cent.

SNOW FALLS IN OMAHA

Thermometer Drops to 69 Degrees During Precipitation.

Omaha, Neb., July 31.—Snow fell in Omaha last night for two minutes at 9 o'clock. The thermometer registered 80 degrees.

At 9:40, during a sudden storm, snow flakes filled the air, the temperature being 69 degrees at the time.

SNIFFED TRIGGER; MAN SHOT

New Yorker Believed to Be Dying From Wound Received.

New York, July 31.—Joseph Talobian is believed to be dying in a hospital from a gunshot wound received in a peculiar manner.

He laid a fully-loaded and cocked shotgun on a chair in his home and

his pet spaniel, Mery, sniffed at the weapon and pulled the trigger. Taobrian received the full charge of bird shot in his side, breaking one rib and penetrating the vital organs.

A Miserable Man Made Happy.
 Beau Nash on many occasions showed great kindness of heart, and it is told of him that on one occasion he asked a rich man for a donation of \$5. The money was given, and the donor asked the Beau how it had been disposed of. Beau handed him an account signed with the signature of the recipient on which was written: "To making a miserable man happy—\$5."—Home Notes.

Hypnotism in Sickness.
 One of the greatest sicknesses of the last century, an authority who still prevails, says that a large element of suggestion, therefore hypnotism, enters into the mind of every person who realizes or ever strongly believed he is sick, and this realization acts upon the mind that it becomes open to ordinary suggestion or to the more professional forms of hypnotic suggestion.

The Smoker's Imagination.
 In brief, smoking is not a mere matter of acquiring the system, nor even of acquiring a certain taste in the mouth; the sense of sight enters into it considerably and imagination most of all. How else shall we account for the fact that no smoker can tell with his eyes shut and his hands tied whether his cigar is alight or not?

The British Crown.
 The present crown of Great Britain was constructed in 1808, with jewels taken from old crowns and others furnished by command of the queen. It contains four large pear-shaped pearls, 273 small pearls, 147 table diamonds, 1,273 rose diamonds, 1,303 brilliant diamonds, five rubies, 11 emeralds and 11 sapphires.

Holds the Record.
 The Beaumont (Tex.) Enterprise tells of a typist who can take 100 words per minute. We know of a man in Allentown with a hatchet-faced wife who can, and does, take at the rate of about 300 words per minute when she gets wound up.—Allentown Democrat.

Advice Welcomed.
 "You won't mind if I write you a letter now and then and tell you how to run your paper?" "No," answered the editor of the Oatville Clarion; "not if you'll be sure and subscribe, so that you can see whether I am following instructions."

Moral Zealot Nuisance.
 The worst man you can have in the community is the zealot, who would regulate your morals and religion by his narrow standard of right and wrong. Orthodoxy is well enough till it goes on the warpath.—Washington Post.

WILL GIVE AWAY WHOLE TOWN

Lumber Company Has No Use for It Since Cutting Timber.

Springfield, Mo., July 31.—Because the timber in Carter county has practically all been cut, the town of Grandin in that county, once a flourishing village of 500 inhabitants, with churches and schools and a bank, is to be given away entirely.

The whole town is owned by the Missouri Lumber and Mining company, which controlled nearly all the timber lands in Carter county. Since the timber has been cut and saved the lumber company has no further use for Grandin, where its saw mills were located.

The town has been offered to the National Congregational Educational society for the founding and maintenance of an industrial academy. The church has signified a willingness to take the place and build it up as an educational center.

MOB LYNCHES TWO NEGROES

Pair Taken From Sheriff at Opelousas, La., and Shot.

Opelousas, La., July 31.—Opzime Thomas and Emile Antoine, negroes, who were being taken to jail yesterday by Deputy Sheriffs Doucet and Deshotel, who had just arrested them at the home of Antoine, were taken from the officers by an armed mob and shot to death.

Thomas had shot and dangerously wounded a white man named Fontenot, some two months ago, practically without cause, and had been in hiding ever since.

Thursday the officers learned of his hiding place and he was arrested. The whole section is aroused over the lynching and much regret is expressed among the better class of residents.

"NO SIR; ONLY THE THIRD"

Pastor Only Inquiring if It Was the Ninth of the Month.

Flushing, N. Y., July 31.—A local clergyman, pastor of a popular church here, received as a caller at his parsonage a young matron carrying in her arms a shabby faced youngster.

"I want the baby christened," the mother said. After the ceremony the clergyman

started to write out the baptismal certificate required by the board of health.

Forgetting for the moment the date of the month, he remarked to the mother:

"This is the 9th, isn't it?" "No, indeed, sir," replied the young matron indignantly, "it's only the third."

St. Louis and Girl Betrothed in Moment of First Meeting.

Minneapolis, Minn., July 31.—"Good morning. My name is Harry McNair. Come on; let's get married." "I've got you. Mine's Milly Becker."

This up-to-date proposal, after an acquaintance of an hour, resulted in a wedding here today.

McNair, an actor, living at No. 2946 Eads avenue, St. Louis, met Miss Becker at a hotel yesterday. The introduction and proposal were combined to save time. The train for St. Louis was about due to leave and McNair had an engagement there. A hurried visit was made to the license clerk's office, and William E. Bates, court commissioner, spoke the words that made them one.

BURNED HOLE IN "NIGHTIE"

Woman Only Dazed by Lightning Striking Her Bed.

Marshall, Mo., July 31.—A severe electric storm struck this county last Thursday night. Hay stacks were burned, valuable stock was killed and other damage was done both in town and the country.

Charles Barr and wife, who live near Marshall, had a close call. Lightning struck their residence and the bed in which they were sleeping. Mr. Barr was stunned and was unconscious for some time. A burn on his forehead was the only injury.

Mrs. Barr was dazed, but not injured. Part of the bed clothes were burned and a hole was burned in Mrs. Barr's night dress.

OCEAN LINERS ARE BUSY

THOUSANDS OF VOYAGERS RETURNED HOME DURING THE PAST WEEK.

SURE SIGN OF AWAKENING PROSPERITY

Fortunes Expended in the Reshaping of Fifth Avenue—Cheers for Negro Soldiers—Actors Who Are Now Idle.

Special to the Democrat-Sentinel.

New York, July 31.—By far the greatest influx of returning vacationists that ever bore back upon this town in midsummer has been recorded here today. Long before the tourist season usually ends abroad, the ocean liners are bringing into port each day thousands on thousands of home bound voyagers this week. While every inch of the incoming steamers is taxed to accommodate this early crowd, it is reported that a small army of travelers is besieging every dock in foreign ports in post haste to secure the first accommodations for America.

At the railway terminals of town constant crowds are arriving back from their summer holidays, more than a month in advance of the time when Gotham ordinarily reclaims its own. Many explanations are today being made by traffic experts and business men for this remarkably early return of the workers of this city. In all of them their figures the sure sign of awakening prosperity which this eager onslaught upon the metropolis by the money makers must mean.

Street Stretching.
After two months of the strangest street splitting that ever tore up the crust of Manhattan island, Fifth avenue lies today for the first time well stretched and cleared, fifteen precious feet nearer back to its building line. Many millions of dollars are being spent to shave off and reshape the fashionable facades of this swell stretch to fit the demands of the city's determined engineers and wrecking gangs.

Tons of construction material and hundreds of thousands of dollars have been devoted by the municipality to this unique upheaval, which has accomplished no more than to admit two extra rows of teams between the curbs of the whirling thoroughfare.

Not one blade of grass remains today on all the fronts of Fifth avenue, where the older settlers for generations took pride in their tiny plots of greenward bedded in brown stone. Traffic will now be more free on the crowded asphalt of the avenue; but for this has been sacrificed much that will be missed.

Color Cheered.
Hell's Kitchen, Nigger San Juan Hill, Thompson street and all the dusky quarters of town are today still seething with excitement over the welcome that the colored cavalrymen of the Tenth have just received from all New York.

To those who saw the town turn out to welcome the home boys of the Seventy-first and Sixty-ninth back from Cuba at the end of the war, the greeting given the negro troopers here after eleven years has seemed not a wait less enthusiastic.

New Yorkers have learned to know how great a part of these brave blacks played in taking San Juan hill, and every shout and cheer as they swept up crowded Broadway bore testimony to this bit of recently established history. It is many a long year since Gotham has been roused by even a ripple of the old Spanish war flood of sentiment, and this triumphal entry of the gallant colored troopers has done much to stir sleeping patriotism.

Theatrical Throngs.
Loitering in swarms about the street corners of the Riato of upper Broadway, more actor folk out of a job are today clustered upon this island than the theatrical agents have counted up in many years. That at least fifteen thousand players are here hunting for work in the opening season is the estimate of the most conservative of the dramatic bureaus, about which every hopeful and penniless aspirant for stage roles must linger, hour after and day after day.

Just how many jobs the season will hold forth for this army of actors is a problem which no one in the theatrical circles seems able to solve at present. While the managers admit bad business during the last year and are consequently feeling their way cautiously to new ventures, it is generally prophesied that with the betterment of the times one of the biggest of amusement seasons in many years may be at hand.

Mourn Minister.
That J. P. Morgan could as ill be spared from the money world as William R. Huntington from the church world here, is the opinion of the multitude that are today mourn-

ing the loss of the famous rector of Grace church.

No more extensive or efficient philanthropic organization ever helped all classes in this city more than that which Dr. Huntington built up and maintained largely by his own personality and wonderful executive ability.

It will be many years before a man can be found who can begin to measure up to the practical stature of this great working divine, and his death will long be felt by the poor of this town.

Preliminary Not Yet Set.

No date has yet been set for the preliminary examination of West Scott, the negro, who cruelly murdered his wife, Mrs. Jane Scott, last Tuesday night.

TO ENROLL THIS WEEK

Central Business College Enters Term Under Favorable Conditions

A large number will enroll in Central Business college tomorrow. Pupils will come in rapidly all through August, but the largest number will enroll in September.

The following pupils have been placed in good positions the past week. Mr. James Maroney, stenographer, construction company, Galveston, Texas, \$75 per month. S. W. Benz, stenographer, H. W. Johnson, Manville Co., Dallas, Texas, \$75 per month. O. A. Peck, stenographer, Missouri Pacific roundhouse Sedalia, Mo., \$50 per month. D. H. Holke, assistant cashier, Farmers' bank, Higginsville, Mo. Miss Jennie White, stenographer, wholesale grocery company, St. Louis, Mo., \$60 per month. Mrs. Lena Rothgeb, stenographer, American Disinfectant Co., Sedalia, Mo. J. H. Sanders, bookkeeper, packing company, Kansas City, \$65 per month. Henry Roark, bookkeeper and stenographer, commission company, Kansas City, \$75 per month.

A number of calls for bookkeepers and stenographers have been turned down the past week on account of not having graduates to fill them. Several positions are now open for telegraph operators, but no one far enough along to take the positions.

If you will prepare yourself in Central Business college or the Sedalia Telegraph school for a position, the position will hunt you, you won't have to hunt a position.

EXPRESS TRAIN DITCHED

Overland Limited on the Chicago, Milwaukee & St. Paul.

Associated Press.

Des Moines, Ia., July 31.—The Overland limited on the Chicago, Milwaukee & St. Paul road went into a ditch while running sixty miles an hour at Cambridge, near here, early today.

A mail clerk and a passenger whose name could not be learned were seriously hurt, and twenty passengers were cut and bruised.

The engineer and fireman miraculously escaped.

The accident was due to a broken rail.

Everybody is reading "Rebecca"—it's worth twice the price. Now on sale at 50c.—Great Scott, 314 Ohio St.

Selling Many Machines.

Archias' Seed store has sold over forty Sharpless Tubular Cream separators this season. The past week Mr. Archias wired for five machines sent by express to fill rush orders. The Sharpless is one of the most widely used separators in the country and is popular in this section.

SEDALIA COUNTRY CLUB

QUESTION SETTLED AS TO WHO IS MOST FINISHED OF HIS PLAYERS.

BLUE RIBBON AWARDED TO G. A. STURGES

He Plays the Short Game as It Is Played at the Royal and Ancient Golf Club of St. Andrews, So His Friends Say.

There was a large entry list in the approaching and putting contest held at the Country club on Friday afternoon.

There has been much discussion and not a little difference of opinion as to just what member of the club could be considered as the most finished player of the short part of the game of golf. The admirers of this player and that have strenuously contended for the superiority of the one admired.

It was true that Mr. G. A. Sturges had won the 1908 approaching and putting contest. Even that fact had failed to convince all of his excellency in that department of the game.

Among others who questioned his right to the claim of champion was Tom Sturges, his brother, and partner, who, on Friday, entered the list with the full determination to keep the honor in the family by winning the contest himself. So also Dr. W. M. Carter he who grows tomatoes, and R. J. Gentry, who farms as a side line to golf, thought unto themselves that the aforesaid G. A. Sturges would be easily vanquished. Many other golfers of different degrees of expertness harbored unexpressed ideas of a similar nature.

Promptly at the appointed time all of these various players and near-players were on hand, each determined to win the cup offered in this contest.

And could Allen Sturges was there, cool, calm, collected. He appeared to have nothing on his mind other than to perform his duty as a member of the tournament committee, in charge of the contest.

One by one the players approached the eighth putting green from 125, 100 and 75 yards. All had played and holed out, and Dr. Carter, Tom Sturges, R. J. Gentry and Orville Barnett were tied, with eleven strokes for the three balls.

That is, all had played excepting he who was to win. Requesting some one to keep his score, the hero of 1908, steady as a Dutch clock, approached the green with an air of confidence, holed out in 10, and received the more or less hearty congratulations of the players who had negotiated an eleven.

No longer is it questioned, but it is conceded that G. A. Sturges plays the short game as it is played at the Royal and Ancient Golf Club of St. Andrews. And he is modest without

Peculiar Chinese Taste.
Chinamen have a preference for the eggs of the goose or duck. These they place with aromatic herbs in slaked lime for a period of some weeks. Under the influence of time the yolk liquefies and takes a dark green color. The white coagulates and becomes green. The product of the eggs, which has a strong odor, the Chinese eat as a side dish and it is said to have the taste of lobster.

American Grace Lines.
Aristotle says: "A land that spontaneously sprouts beauty in fruits, flowers and women must also produce a glorious fruitage of intellect in man." The girlish grace lines of the Venus of Phidias almost exactly contour to the lines of American demure and matrons, and these are preserved longer and more gracefully than in any other peoples—ancient or modern.

The Wickedest People.
I think the wickedest people on earth are those who use a force of genius to make themselves selfish in the noblest things; keeping themselves aloof from the vulgar, the ignorant, and the unknown; rising higher and higher in taste, till they sit, ice upon ice, on the mountain top of eternal congelation.—Henry Ward Beecher.

The Bright Side.
A certain lady prides herself upon always looking at the bright side of things. "My dear," moaned her husband one day recently, as he tossed restlessly on his bed, "it's the doctor I'm thinking of. What a bill his wife will be!" "Never mind, Joseph," said his wife. "You know there's the insurance money."—Bellman.

Duchess Can Be Shabby.
A duchess may be as shabby as she pleases, and, in spite of socialism and a badly hanging skirt, she will remain a power in the land, but the suburban lady does not care to be seen with her best friend if the latter be wearing an old-fashioned frock.—Black and White.

TO HAVE BARGAIN DEPARTMENT

William Courtney to Perpetuate Policy of People's Shoe Store.

Saturday, July 31, ended the existence of the People's Shoe store at 204 Ohio street. The owner, William Courtney, directed the removal of what stock remained unsold to his original store at 228 Ohio street. The People's was a progressive bargain store. It was just entering upon its fourteenth year and was regarded as Sedalia's bargain shoe center.

Mr. Courtney will perpetuate the policy of the store by installing a bargain department in his regular store. The conditions will be the same in every way; the same quality shoes will always be on sale, and to introduce the new department he announces in this morning's Democrat-Sentinel a sale that will last the entire month of August at which can be bought shoes at the same prices as at the People's shoe store sale, and in instances the reductions will be greater.

SHERIFF GOING ON A TRIP

To Attend National Prison Association Meeting.

Sheriff M. T. Henderson received a letter Saturday from Rush Lake, secretary to Governor H. S. RUMBLINGS OF THE RAIL

THE FIRST VICE PRESIDENT OF THE PENNSYLVANIA ROAD RETIRES.

COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

After forty years of activity in the development of one of the country's greatest railway systems, Capt. John P. Green Saturday retired as first vice president of the Pennsylvania. He will receive from the road a pension of \$13,200 a year as long as he lives. Directors of the road have passed a resolution containing the following tribute to his official life and personal worth.

"His complete mastery of the science of sound financing, his thorough knowledge of the finances and history of this company, his address and clear and forceful style, have made him for many years the spokesman of the management, while his general knowledge of railroad affairs and business conditions of the country have made him a prominent figure and potent factor in the debates upon legislation seeking to regulate rates and other railroad matters, as well as in the discussion and solution of intricate problems in accounting.
